GUARANTEE NOT ASKED BY CAPPER

be taken out of the law as unjust and false economically and a great hardship to the West and particularly the Pacific coast, for under its operation long haul rates are practically prohibitory and if continued means a complete rearrangement of business, and particularly manufacturing, to eliminate the long haul.

Not only would he wipe out the guarantee measure, but Senator Capper proposes to urge another bill to strengthen the power of state governments over interstate rates and the conduct of transportation in general.

Favors State Control.
He claims that the tendency to centralize the control of transportation in Washington has left the states largely at the mercy of the dictates of the interstate commerce commission to the damage of state control and development of state enterprise and initiative.

He would make the state governments so strong in transportation matters that their rulings would have to be given heed by the federal authorities and believes that such action would be of great benefit to the shippers of the western states.

He expects to introduce both measures in the next few days. It is conceded that one of the results of this action on the part of Senator Capper will be to include these points in the general railroad inquiry about to be instituted by Senator Cummins as chairman of the senate committee on interstate commerce.

Accident Statistics.
An American physician who has collected a mass of statistics regarding serious accidents on railroads, in mines and factories, has put it on record that the dangerous period of the month is from the twentieth to the twenty-sixth. He declares that nearly half the bad accidents of the whole month occur during those seven days.

Joseph Stransky, conductor of the New York Philharmonic Orchestra, which plays here at the L. D. S. Tabernacle on April 30, contributes his distinguished abilities to the orchestra this year for the tenth consecutive season. Mr. Stransky and the personnel of the Philharmonic Orchestra present an exceptional unity. The development of the ensemble is remarkably interwoven with the magnificent, conscientious effort, and interpretative genius of its leader.

Joseph Stransky is an American citizen by choice. He was born in what is now the new-republic of Czechoslovakia. As a young man, Joseph Stransky entered and was graduated from a medical university in Bohemia; but even during this period of study, his final calling made itself evident in his actions, for he founded the first university orchestra in Prague, and was its leader until after graduation. Soon he decided that, like so many artists who have started life in an ungenial pursuit, he must decide between the two interests.

The decision was quickly made. He put aside the scalpel for the baton with a light heart, and took up his life work with the enthusiasm and conscientious application that have helped to place the orchestra which he now conducts in the forefront of American musical institutions.

Monday noon has been set for the conference hour of local musicians to assist the entertainment committee of the Ad Club to secure ways and means for having this exceptional attraction.

The play, "Beyond the Horizon," by Eugene O'Neill, will be presented by the Neighborhood Club at its rooms in the library building on Tuesday, April 19. This play has been awarded the Pulitzer prize of \$1,000 by Columbia university as the best American drama of the year.

It is considered as the season's most notable play of serious tone and purpose by any American author, according to the New York World. A prominent critic has pronounced this play "America's most important contribution to the drama."

The cast includes the following: Mrs. Earl Stoddard, Mrs. L. B. Moe, Mrs. Harry Zurbick, Mrs. Lynn Bohnenkamp, Mrs. Chase Bohnenkamp, Mrs. Alvah Duryea, Mrs. F. E. Oxner, Mrs. A. T. Hill. First and third acts to be presented by advance cast. Story of second act will be told by Mrs. O. E. Silverthorn.

The day is to be in charge of Mrs. G. S. Birnie, and the stage direction in charge of Mrs. Norman Freese.

The Latin club of the high school held its annual banquet at the high school last evening, 23 guests being present. Toasts were given by Edith Hill, Constance Cleaver and Marjorie O'Brien.

During the meeting plans were laid for the coming month's work, following which dainty refreshments were served by the hostess of the afternoon, Mrs. M. L. Carter, on North Alder, will be hostess for next month's meeting.

Wild horses roam no more. Sometimes in the isolated mountain regions of the West horses are found running loose, but these might be termed wild, they usually belong to some rancher who has let them run loose. Wild horses are frequent in various parts of Arizona and occasionally are found in Utah. But the old wild horse herds of the mountain plateau regions have gone, probably never to return.

Fine Place to Explore.
Arabia contains possibly the greatest tract of unexplored territory now existing in the world. According to one authority, no European traveler has penetrated more than a hundred miles from the coast, except at one or two points, in the vast southern part of the peninsula, where about 750,000 miles of territory (largely desert) remains unexplored.—Outlook.
