FOREST OWNERS HOLD ANNUAL MEETING

Union County Association Re-elected Officers of Last Year—Wallawa Has Separate Assn.

The Union-Wallowa county fire association has changed its name to the Union county fire association, a separate association having been organized in Wallowa county. This action was taken at the annual meeting of the association yesterday afternoon at the Y. M. C. A.

The board of directors elected for the coming year follows: George T. Cochran, Elmer Stoddard, T. J. Serogatin, E. N. Jacobs and George Palmer. These directors met immediately following the stockholders' meeting and re-elected the officers who served during the past year. They are George T. Cochran, president; Elmer Stoddard, vice president; T. J. Serogatin, treasurer; J. L. Cramer, secretary.

Money Left Over
While no action was taken on the tax levy to be made this year, the auditor's report showed that last year's levy left a balance and the finances of the association are in good condition. The secretary was instructed to arrange a meeting to arrange for an equitable distribution of the surplus remaining in the joint association's treasury. All other matters of the joint association will also be wound up at this joint meeting.

The principal report of the meeting was that of F. A. Elliott, state forest supervisor. Mr. Elliott reported that the last session of congress had increased the appropriations under the Weeks law from approximately \$125,000 to \$200,000. This will be distributed to assist fire fighting wherever states are organized for that purpose and it will result in approximately doubling the amount of money available for the purpose under the Weeks law, greatly benefitting the local association as well as other similar associations in this state.

More Money Available
The additional funds to be derived from this course will not have any effect on the tax levy on members, but the efficiency of the association will be materially increased. The publicity campaign of the association this year will reach into the schools and homes through printed publicity and through the movies while warning signs will be placed in the various forests represented by the association.

Besides Mr. Elliott the following visitors were present at the meeting: C. S. Chapman, secretary of the northwest forestry conservation association; R. M. Evans, government forester at Baker; Mr. Angell, ranger at North Powder; W. C. Calder, of the Oregon Lumber company, at Baker.

L. E. Russell was employed as warden for the coming season, his term of service to be from May 1 until October.

Parade "Sport"
What is the world's most dangerous sport? Mountain climbing takes many victims, but descending into the crater of volcanoes beats it. The present activity of Vesuvius calls attention to it. The descent must be made in fireproof clothes and gas mask. The air is full of stinging fumes and there is always the sporting chance that the volcano may start erupting. The floor of an active volcano is usually semi-liquid. Parts are solid enough to stand upon, others are liquid rock.

FORMER ELGIN BOY CALLED BY DEATH

The Delta, Colorado, News tells of the death of Harry D. Campbell, aged 18, a former resident of Elgin. The News has the following to say: "The community was shocked and saddened early Sunday morning when it was learned that Harry Campbell, son of Mr. and Mrs. C. H. Campbell, had suddenly passed away."

"Harry Drake Campbell was born 1902 and passed from life April 19, 1921, at the age of 18 years, 2 months and 6 days. At the age of eleven years he came to Delta with his parents, where he made his home, engaging in school and church work in a hearty manner, always willing and ready to do what counted most. For the past two years he was secretary in the Methodist Sunday school. He was a member of the Class of '21, all of whom are plunged in grief because of his taking away."

"Surviving members of the family are the parents, Mr. and Mrs. Charles H. Campbell, two sisters, Ruth and Madeline, and one brother, John."

"Funeral services were held at the Methodist church Tuesday afternoon at 2 o'clock."

Popular Songs.

"It is a mistake I believe, to act too strongly, on the theory that to the public should be done out only those things which certain authorities think they should have," said a prominent singer recently. "Let us consider the public's side. Let us give the public some of the things it really wants—even the simple song which the critic condemns for its excess of sentiment, if we can deliver it so that the public is touched and rejoices."

Besides Mr. Elliott the following visitors were present at the meeting: C. S. Chapman, secretary of the northwest forestry conservation association; R. M. Evans, government forester at Baker; Mr. Angell, ranger at North Powder; W. C. Calder, of the Oregon Lumber company, at Baker.
