INDIGESTION AND CONSTIPATION.

Prior to using Chamberlain's Tablets, I suffered dreadfully from indigestion. Nothing I ate agreed with me and I lost flesh and the down in health. Chamberlain's Tablets strengthened my digestion and cured me of constipation. Write Mrs. George Stroup, Solway, N. Y.—adv.

HE COULD HAVE SAVED HUNDREDS OF DOLLARS

Oregon Man Is Sorry He Did Not Know About Tanlac Long Ago—Rheumatism and Other Troubles Are Overcome By the Use of This Wonderful Medicine.

"I firmly believe that if I had gotten hold of Tanlac three years ago it would have saved me the awful suffering I had to endure, besides hundreds of dollars I spent for other medicines that did me no good," said J. E. Wilson, of Linnton, Ore.

"I suffered from rheumatism and stomach trouble for about three years, and for weeks at a time I was scarcely able to do any work. My appetite was very poor and I was able to eat just about enough to keep me going. My liver and stomach were out of order, and I would blot-

up with gas that affected my heart, and I would get so short of breath I could hardly walk up a little hill from the mill to the road. My joints would pain me terribly and my hands got so stiff I could hardly close them, and many a time I did not think I was going to be able to work the day out.

"Nothing I took seemed to do me a bit of good until I got Tanlac. In a month my stomach was in the best of order and I can now eat just anything I want without its causing me the least bit of trouble. The blotting has disappeared, my heart no longer bothers me and my breathing is free and easy. The rheumatism is so completely gone that my joints do not ache any more and I'm simply feeling fine."—adv.

SUCCESSFUL TIRE MERCHANDISING IS IN SERVICE

"The secret of success in present day tire merchandising is in Service," declares A. S. Hogan, Service Manager, Goodyear Tire & Rubber Company of California.

"The idea has come to stay, that tire users may come to their dealers for advice, help and service—that a dealer's obligation to his customer

only begins with the sale of a tire, and ends only when that tire has rolled its last mile.

"The Goodyear Tire & Rubber company of California has capitalized this idea in the establishment of service stations throughout the West, for the benefit of tire users, so little by little the motoring public has come to associate Goodyear with Service.

"In adopting such a policy this company has stepped itself in the spirit of Charles Goodyear, a dreamer with his feet on a rock, who lived

his whole life in quest of the vulcanization secret—that he might be of service to his own and future generations.

"The cost of distribution of tires has always been a substantial part of the cost to consumers. In the early days the channels for distribution were limited. Cars were used in many places where tires and accessories could not be secured. Tire costs were necessarily high. But the new service idea has simplified all this, for as the industry developed more and more car dealers became interested in selling tires and accessories and rendering adequate service. "It is part of our plan to build up Service Stations in every section so that car owners, wherever they may be, will be within easy reach of one of these tire depots."

"Fit for the Gods"

Fragrant woods have always been held in highest esteem among primitive people and were considered especially pleasing to the gods, says the American Forestry Magazine. Accordingly, they have figured prominently in their religious ceremonies and burial rites. Sandalwood is of the first rank.

Lifting Power of Air

The lifting power of air is 0.003 pounds per one thousand cubic feet of air for each degree Fahrenheit above the temperature of the surrounding air. This weight is the total weight inclusive of the dead weight of the balloon.

Decisive Battles of the World.

Sir Edward Creasy wrote a work on the 15 decisive battles of the world which he gives as follows: (1) Marathon, B. C. 490; (2) Syracuse, B. C. 413; (3) Arbela, B. C. 331; (4) Metaurus, B. C. 207; (5) Arminius, A. D. 9; (6) Chalons, A. D. 451; (7) Tours, A. D. 732; (8) Hastings, A. D. 1066; (9) Orleans, A. D. 1429; (10) The Armada, A. D. 1588; (11) Blenheim, A. D. 1704; (12) Pultowa, A. D. 1709; (13) Saratoga, A. D. 1777; (14) Vainoy, A. D. 1792; (15) Waterloo, A. D. 1815.

Beginning of Modern Menageries.

The ancient Romans and Greeks kept in captivity leopards, lions, bears, elephants, giraffes, camels, rhinoceroses, antelopes, ostriches and crocodiles, held for slaughter at the gladiatorial shows. It is from the great feudal manor houses and royal persons who frequently kept menageries of wild animals, aquaria and aviaries that the modern public gardens have their origin.

An Irish Will.

The will of one Henry Green, dated December 22, 1070, "as recorded gave to his sister, Catharine Green, all his lands, and after her decease to others in trust, upon condition that she should give four green waistcoats to four poor women in a green old age every year, such green waistcoats to be fitted with green galoon lace and to be delivered to the poor women on December 21 so that they might be worn on Christmas day."
