that will come from throwing the senate chamber and the marble room together. Some hard-shelled critics say that the move is to make the senate more luxurious and more like an exclusive club. The new arrangement is not popular with the men and women who make the majorities back home. Old timers in Washington say that the reactionary and exclusive attitude adopted by the new senate will not last, and that if great care is not taken speedily to discontinue such an autocratic attitude, reprisals will be made when a new set of senators and a new congress are to be elected a year from next November.

The senators, hardened by innumerable campaigns and calloused by long years of service beneath the dome of the national capital, when accused of hiding from the common people, merely shrugged their shoulders and passed on.

TRACK MEET MAY BE HELD

At 1:30 this afternoon Earl Reynolds, coach of the La Grande high school track team, was still uncertain whether the dual meet with the Union high school would be held this afternoon or not. The Union team was on its way here at that time.

While the rain of the past few days has put the track into a condition that is far from ideal, this morning an inspection by Reynolds showed that unless the rain continued during the afternoon it might be possible to hold the meet.

TICKET SALE RECORD BROKEN

Probably never before in the history of La Grande has there been such a demand for tickets to a concert as to the New York Philharmonic concert Saturday evening at the L. D. S. tabernacle.

Tickets went on sale at ten o'clock yesterday morning and shortly after one this afternoon only twenty seats were left and these will undoubtedly be sold before evening.

The concert will begin shortly after 8:00 and all ticket holders are urged to be seated at 7:30 as the doors will be closed during the first number, which will last twenty-five minutes. Business houses have been asked to the Ad Club, under whose auspices the concert is given, to close at 8:00 Saturday in order that all ticket holders can arrive on time.

Microscopic Writing.

The British museum possesses a portrait of Queen Anne not much above the size of a hand, on which appear what seem to be a number of scratches. The scratches when magnified prove to be the entire contents of a book carried in the queen's hand.

Advertisements of Old.

Advertisements were in vogue in ancient Egypt, Greece and Rome. On the walls of Pompeii have been found announcements of gladiatorial shows, with rough pictures of favorite gladiators, etc., anticipations of the modern poster.

Chief Executive's Simple Title.

The address of the President is simply "The President of the United States." There was debate over the title in the first congress. Some members proposed that he be addressed as "His Excellency," and others argued for "His Highness," but a committee reported that "it is not proper to annex any style or title other than that expressed in the Constitution."
