SCHOLARSHIP IS OFFERED

Here is a chance for some senior in high school to win a cash scholarship of $100 from Oregon Agricultural College this year. A new donation to the scholarship fund makes four of these $100 awards possible, and competitive contests for the scholarships will be conducted in La Grande by H. M. Du Bois, principal of the high school.

Three separate contests will determine the winner. The first will feature competitive essay writing and will be judged on originality. The second contest will be in the form of efficiency tests, and the third will be to determine the student's ability in extemporaneous writing.

The principal of the school will determine the students rating highest in the contest, and will forward their papers to the college. The committee on awards will announce the winners soon after the close of the contest.

The first contest will be conducted in the various high schools of Oregon in the next two weeks. Any high school student who has been graduated within the last year may also enter the contest, provided he or she has never attended college.

"The small town student has an equal chance with the large town student in this competition," says one member of the committee. Printed rules governing the contest are being sent to every four-year high school in Oregon by the committee on awards and honors at the college.

IRISH AFFAIRS ARE DISCUSSED

LONDON, May 6.— Sir James Craig, premier designate for the Ulster professor, Eamonn Valera, Irish republican leader, had a conference on Irish affairs in London Thursday, it was announced officially.

NEW LIBRARY RECORD MADE

The report of Miss Mary Nichols, city and county librarian for the month of April shows that in spite of the fact that owing to the coming of spring ordinarily people read less than during the previous months, all previous circulation records of the library were broken. The number of books loaned during the month was 3661, this being 161 more than during the month of March of this year, which had broken all previous records.

An average of 141 books a day were loaned. During March an average of 130 books a day were loaned. Fifty-five new borrowers were registered at the library during the month.

"HONEY IN HIVE, MONEY IN BANK," SING BUSY BEES AMONG SUMMER FLOWERS

BEAUTY AND THE BEE

WINNIPEG, MAN.— Wild flowers of Manitoba and the blooms of clover and alfalfa put a sum estimated at close to half a million dollars into the pockets of the farmers of the province in 1920. This transmutation of blossoms into gold was accomplished through the alchemy of bees.

There were 921 beekeepers in the province at the close of the year according to a government report, and they marketed more than 1,000,000 pounds of honey which sold for 35 and 40 cents a pound. Manitoba has long been the great honey producing province of the Dominion. There are a number of large apiaries whose management is the sole business of their owners but the bulk of the honey comes from the small farmers. Bee[illegible] becoming an increasingly important factor in farm industry not only in Manitoba but throughout Western Canada. Their value is being more and more appreciated and in the diversified farm[illegible] along the Canadian [illegible] Railways must [illegible] add to their income with a few colonies of bees.

Manitoba honey is rated in the market as of superior quality. [illegible] of wild land whether prairie or wooded is carpeted all summer with a profusion of wild blossoms while alfalfa and clover spread a flowery banquet for the bees. The rich soil and [illegible] it is said, have much to do with imparting to Manitoba honey its excellent flavor. George Malcolm, minister of agriculture, said recently that honey eventually will be to Manitoba what maple syrup is to Ontario.

GOLDEN RIVERS OF WOODLAND SWEETS INUNDATE PANCAKES OF CONTINENT

WHEN THE SAP IS IN THE MAPLES

OTTAWA, ONT. — From the maple trees of eastern Canada miniature rivers of syrup will soon start flowing. Later it will blanket the pancakes of a continent and give the palatable touch to many other table delicacies.

Twenty million pounds according to a department of agriculture report, should be this year's harvest. Quebec the biggest producer will furnish about 14,500,000 pounds, Ontario about 5,000,000 and New Brunswick and Nova Scotia graves the remainder. Total value should exceed $2,000,000.

Vast stretches of primeval maple forest [illegible] modern sugar making equipment in northern parts of Quebec and Ontario. Plans for [illegible] advanced by a number of interests including a co-operative sugar makers' association. This organization also seeks laws to prohibit compound syrups that deceive the public and is urging the government to assist in a big annual exposition. The government has established in Quebec four schools in the manufacture of sugar and syrup.

Reforesting with maple which "should prove a very remunerative enterprise yielding an annual crop of sugar and a heritage in timber," is advocated in the government report. The Indians started the industry gashing the maples with tomahawks and catching the sap in birch-bark dishes. It was boiled in earthen kettles. In a few backwoods spots the methods of the redmen have been little improved. Modern equipment will soon transform this condition however.

ELKS PURCHASE CAMP GROUNDS

BEAUTIFUL WOODED TRACT AT HEAD OF WALLOWA LAKE.

Members of Order Can Secure Camping Privileges for Their Summer Camping Outing.

ENTERPRISE, May 6—The Branch Line club of this city recently purchased a 120-acre tract of land at the head of Wallowa lake, to be used as a camping ground for local and visiting members of the Elks lodge. The land lies on the east side of the river and is near enough to the amusement grounds to make them accessible to any who wish to visit them and at the same time far enough away that those desiring a quiet place to camp will not be inconvenienced.

It is one of the choicest spots for the purpose that could be found. An abundance of timber for wood, fencing and for the construction of permanent camps is on the land and a fine spring of water rises on the higher ground at the upper end and will be piped to the camp site where a community kitchen will be built. This kitchen will be provided with stoves and other conveniences and will be free of access to all using the camp grounds.

Any member of the order may have a lease on a camp site, such sites to be designated later.

This is one of the largest undertakings that any lodge of the county has put under way and doubtless will be a great benefit to the county at large, as well as to the towns along the route of the highway, as great numbers of outside Elks already have decided upon this as the place to spend their summer vacation.

Invitations were issued to all Elks of the county to attend a barbecue and general get-together at the head of the lake last Sunday, but owing to the inclemency of the weather this had to be postponed.

Business Picking Up.

The summer business at the Soda Fountains is looking up somewhat. All seem to be good and ready for it. That is what we notice at Al Cain's, Palace Confectionery Co.

Perfect Developing.

A fine Camera or Kodak these finer days will cause you to want a chance to try your luck on some good picture. We do perfect developing and printing, also enlarging. Why not let us do your work and be pleased.

Hilton's Garage

To the Workers of Oregon

By Otto R. Hartwig
President, Oregon State Federation of Labor

DURING these days of reconstruction and uncertainties, it becomes more than ever necessary for the citizens of Oregon to patronize the industries of Oregon by buying such products as are made in this state.

Industries of Oregon cannot be expected to grow and furnish continuous satisfactory employment to the workers of Oregon if we spend our money for products manufactured elsewhere.

It is a well known fact that on the whole, Oregon workers are receiving better wages and working under more satisfactory conditions than is true of the workers in many of the eastern centers where a good deal of the products that the careless purchaser buys comes from. It is the height of stupidity and selfishness to demand decent working conditions from the Oregon employers and then turn around and use the money earned in Oregon to buy products made under sweat-shop conditions that exist in many of the eastern and middle states.

Let's buy Oregon Products!
