

SPEAKING OF

MARSHMALLOWS

ALVIN SNAPP SAYS

The popularity of KRAUSE'S Marshmallows is growing every day. In Washington, Oregon, Idaho and Montana the majority of merchants will handle no other. In the states of Minnesota, North and South Dakota, Wyoming, where we have just started selling our cakes, the merchants have seen the difference and they are selling KRAUSE'S.

WHY? KRAUSE'S are fluffier and more tender than any other Marshmallow on the market and they stay that way. They are packed in tin, which is the only way that is really satisfactory to pack Marshmallows, because it's the only way they can be kept fresh. Our 20c tins contain 26 Marshmallows. Have you ever counted those in other packages?

We don't stock KRAUSE'S Marshmallows, they are moving over the counter too fast.

came he devised plans for the employment of returning troops, urged Congress to federalize the Americanization of the foreign born, aided in the reconstruction of France and other war-torn nations and advocated immediate passage of a bill to give farms to soldiers. He was also active in the Council for National Defense and the American Red Cross.

Supported the League
Secretary Lane was a zealous supporter of the League of Nations covenant and advocated ratification of the peace treaty of Versailles.

In the summer of 1919 Secretary Lane recommended to the President the calling of a conference of representatives of American capital, labor and industry to discuss economic problems. The National Industrial Conference, of which Mr. Lane was made chairman, was the result. As chairman of the Railroad Wage Commission in 1918 he helped to settle a number of strikes and avert threatened walkouts.

Mr. Lane married in 1893 Miss Anne Wintermute of Tacoma, Wn. Two children were born to them, Mrs. Nancy Lane Kaufman of Washington and Lieutenant Franklin K. Lane, Jr., U. S. A. of Los Angeles, Cal.

For protection against the ultra-violet and infra-red rays, it has been found that the following combinations of commercial colored glass are satisfactory: red and green, red, cobalt, brown and cobalt blue.

WHOOPIING COUGH.

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough with pronounced success. It is safe and pleasant to take.—adv.
