HORSES WANDER BACK TO VALLEY

IOWA SCHOOL DISTRICT, May 19.—(Special).—Although Sunday night was rainy, the weekly sing was attended by a larger number than usual. Owing to the fact that next Sunday night the baccalaureate services for the high school will be held and that there are three graduates in the neighborhood, Miss Mildred Hoyt, Miss Myrtle Hoyt and Miss Julia Hulse, it was decided to postpone the next sing until the following Sunday, when it will be held at the August Erickson home.

The mother of Coy Rector has just arrived from Freewater to make an extended visit here.

Mr. and Mrs. Elmer Butler were visiting in the district Sunday.

Hugh C. Hulse, herder for the Sumnerville Livestock association, was home to spend Sunday with his parents, and to get supplies. He reports the grass to be at its best, and on the southern end of the range it is actually at the point of going to seed. On the contrary, it is just beginning to come spring at the northern end. The grass not having started sufficiently to make feed for all. The Indian Trail is covered in places by eight feet of snow. Mr. Hulse has been having considerable trouble in keeping the stock on the preserve, several head of horses having come down to the valley. The chief reason for their wandering was that for two weeks they were out of salt.

The rain was gratefully received by the farmers for the land to be summer-fallowed was getting too dry to plow, and it gave to the growing grain a new lease on life.

Bernal Hug is some mathematician. He figures that he and his two sisters have traveled half way around the world, in getting their education. They have rode their pony to and fro from home to school six miles a day for 13 years, making 11,880 miles, which he figures is half way round the world. The pony has been going to school long enough to graduate soon, he thinks.

Mrs. F. Donahay honored the graduating class and faculty of the high school by entertaining them with an afternoon luncheon at her home Wednesday after the class day exercises.
