ETIQUETTE

When Raising His Hat.

A gentleman in acknowledging a lady's bow, raises his hat and slightly inclines his head. Profound bows and broad smiles are vulgar. Under no circumstances should a gentleman refuse to return a lady's bow. A lady, having the initiative in this matter, may bow or not, as she pleases. In the past it has been customary to remove the hat entirely when talking to a lady on the street, but here of late it has been considered proper to raise the hat on approaching the lady and then lift it again when he withdraws.

A man can show his respect to ladies in no better way than the proper raising of his hat and at the proper time.

To witness an execution denotes success in love; such a dream shows your sweetheart to be fickle and little calculated to make you happy. To see one or more men executed denotes great success in trade.
