Your Efficiency Depends on Your Eyes

Good work needs good eyesight, because, as a chain is no stronger than its weakest link, so a man is no stronger than his weakest faculty. And now, when the quality of a man's work will play such an important part in the determination of his income, you owe it to yourself to keep your faculties alert, keen—fit for the competition of industry

DON'T WONDER WHETHER OR NOT YOUR EYES ARE EFFICIENT. Have them examined—and KNOW!

U. S. Government statistics prove that over 80% of the men examined for the army had defective vision. This should indicate that possibly your eyesight is not so efficient as it should be. Have your Eyes Examined—and KNOW—as every Live American should.

Carpenter's Career—

Beginning with this issue of the Observer is a series of sketches on the life of Georges Carpentier, noted

It's especially interesting since America knows little of the early history and experience of the French fighter.

Want to Aid Bond Sale—

The Cove farm bureau branch, at a meeting held Friday, decided to make an effort to raise a fund for meeting the difference between the amount bid on the road bonds this week and the par value of the bonds which is the amount the bonds must be sold for. It is planned by the Cove people to attempt to raise about \$5000, the amount that would be required for bringing the bid on \$20,000 to par. If this can be done an effort will be made to find a means of making the sale of this amount of bonds possible for the purpose of building the road from La Grande to Cove.
