

Happy June

SHOULD SUGGEST HEALTH AND VIGOR

THERE'S more joy in the world when all of the system is in ship-shape order—as compared to the conditions which prevail when some of the organs are out of gear.

A PARADE OF PROTEST

JAMES HOOPER, OF UNION, DIES

NORTH POWDER, May 31.—

(Special)—The sad news of the death of James Hooper reached North Powder on Monday. Mr. Hooper had been cutting meat in a butcher shop in Union and had in some way contracted blood poisoning in his hand. It was not thought to be serious at first, but as he did not get along as well as he should he was taken to Hot Lake to have the best medical attention that could be gotten for him. However, all efforts were unavailing. He leaves a wife and children to mourn his death.

Mrs. Sumpter was injured in an automobile accident on Sunday. The family was on their way to visit with some friends when they hit a deep rut in the road and the next thing the car overturned, throwing everyone out. Mrs. Sumpter was the only one that was seriously hurt. She was brought into town to the home of Fred Nice and the doctor summoned. She is resting easily at present and it is hoped that she will soon get over the shock.

Jack Jones was stricken with paralysis on Saturday. He was out harnessing up his horses to go to work and as he did not come in some of the family went to look for him and found him unable to help himself. He sustained some injuries from the horses. His family has been called and he is said to be in a serious condition.

A fine shower of rain fell Monday. Following the rain of last week it is doing lots of good for the crops.

Memorial Day was well observed in North Powder. People thronged to the cemetery to decorate the graves of those gone before. These graves were beautifully decorated. Business houses were closed and everything was quiet in keeping with the day.

Neil Olson and his son, Olaf, have purchased a dairy ranch at Edin and have moved their stock down there already. Mr. Olson expects to go within the next few days and will make that their future home. Olaf will spend part of the summer here looking after their crops which they have here. Their friends wish them success in their new home.

Mr. and Mrs. Woolley, the editors of the North Powder News, have sold that newsy little paper and left on a vacation. These good people have made many friends for themselves who wished they could live here content to stay here. However, their successors come highly recommended and are sure of a hearty welcome from this section.

The rivers of this section are still very high from the rains and there seems to be no lowering of the water during the recent cold spell. The highest waters of several years resulted from a week of rain and it is a short time that all the water has been washed out. The only safe one to the washed in them.

One of the brick masons, Mr. Moore, has been here and has been working on the brick building.

on for bad tonsils. She will soon be at home.

The C. J. Forstrom family have moved into the Al Olson home where they are at home to their many friends.

Mrs. Retta Allen has finished her term of school at Whitney and will be at home in a few days.

Mr. Mercer is looking after his cattle which he has out on the Jaw ranch in pasture. The pasture is

the best in years and the cattle will soon be ready for the market.

Green River Drinks.

Those "Green River" cooling drinks at Silverthorn's fountain are just right. The "Float Drinks" are also very popular at their fountain.
