NURSE STATES IT STOOD TEST

Miss Hazel M. Burleigh, 960 Francisco St., Los Angeles, Calif., a trained nurse, after having been convinced by actual test of the remarkable results following the use of Tanlac, feels she owes a duty to others to give them the benefits of her experience with the medicine. Miss Burleigh says:

"Last spring I came off a long, hard case and was very badly run down and weak. I felt the need of something to build me up and bring back my strength. I had heard friends and patients praise Tanlac so highly I got some and by the time I had taken three bottles I was feeling as fine and was as well and strong as I ever was in my life and I have been in the best of health ever since.

"Since I have found out by personal test that it is a medicine of unusual merit I have suggested it in several cases with gratifying results, and in one case of chronic stomach trouble the benefits following were nothing short of remarkable and the patient is now entirely well. I do not hesitate to recommend Tanlac in cases where there is need of a good system-builder or in cases of stomach trouble, especially those where formation of gas produces disagreeable symptoms."

FARMERS PLAN FOR A BIG TIME

At the farmers picnic Saturday in the city park, to which everyone is invited regardless of whether or not they are farmers, there will be a very pleasant meeting.

Arthur Swift, vice president of the National Farmers Union today promised to return for the program if it was possible for him to do so. A. R. Shumway will be present as will C. E. Spence, master of the state grange. The proposed legislation which the Grange wants enacted will be taken up and a program of economy in the state will be outlined.

John Wells, president of the Union county union, asks that all come with their baskets. Free coffee will be served.

Collegiate Advantages.

Nothing creative ever set came out of a crowd unless it was put there first by individuals and smaller groups. It is friends talking by the roadside who make history; and the choice of friends is perhaps the most responsible job which falls to a student's lot. If college life has no other justification, it is worth while for the leisure it gives you to choose those who will become your best friends.

Original Protestants.

The name Protestant was first applied to the dissenters of Luther, from their protesting against the decrees passed by the Catholic states at the second Diet of Speyer in 1529. Protestantism spread rapidly over some of the German states, Sweden, Denmark, Switzerland, England and Scotland at about the same time.
