CHAUTAQUA PROGRAM GOOD

C. J. Black, president of the local Chautauqua association, believes the Chautauqua this year will be a great success. Mr. Black says: "As an aid to digestion, let's talk prosperity. It's a homely suggestion, of course, but does it not contain food for thought? At about this season of the year most of us are assailed by our timid friends with intimations of direful times and conditions ahead—yes, just around the corner. The painting of the gloomy picture has been an annual recurrence. Three years ago it was the war; then the H. C. L.; then reconstruction and the Reds; now falling prices and business depression. And yet our nation, our national life, and our institutions have gone steadily forward through bad times as well as good in spite of these constantly threatening dangers.

If we may be permitted to draw a moral from this, it will be that our thinking must be kept normal; the optimistic view must be maintained. At the same time we must look conditions squarely in the face. "As part of our coming Chautauqua program the noted Anzac, Signaller Tom Skyehill, who has just returned from Soviet Russia, will bring an up-to-the-minute story of Russia under the Red regime. Peter Clark McFarlane, the well-known lecturer, writer and interviewer of celebrities, will have a new lecture on our own people. You have been reading Macfarlane in Collier's, The Post and elsewhere for years. There will be other lecture attractions of note; and some splendid music.

"Thus Chautauqua lends itself admirably to our national needs. Indeed, a great leader has called it the 'most American thing in America.' In 1929 the number of Chautauquas on this continent increased exactly 35 per cent over the preceding year. We mention this merely to suggest the growing esteem in which Chautauqua is held by the American people, and we believe Chautauqua's growth is due to the service which it has rendered. May we ask the public their heartfelt assent in our efforts to make our own Chautauqua an institution of the greatest possible service to the people of our community? Let's talk Prosperity!"

Your Efficiency Depends on Your Eyes

Good work needs good eyesight, because, as a chain is no stronger than its weakest link, so a man is no stronger than his weakest faculty. And now, when the quality of a man's work will play such an important part in the determination of his income, you owe it to yourself to keep your faculties alert, keen—fit for the competition of industry

DON'T WONDER WHETHER OR NOT YOUR EYES ARE EFFICIENT. Have them examined — and KNOW!

U. S. Government statistics prove that over 80% of the men examined for the army had defective vision. This should indicate that possibly your eyesight is not so efficient as it should be. Have your Eyes Examined—and KNOW—as every Live American should.
