MR. AND MRS. CHRIS MILLER TELL OF HAPPENINGS

La Grande People Have Fine Time on Recent Trip to Anchorage, Alaska.

La Grande friends of Mr. and Mrs. Chris Miller, 1510 Adams avenue, have received word from them that they have safely reached Anchorage, Alaska, where they will spend the summer, and are enjoying themselves very much. The letter from Mr. Miller is as follows:

"We left La Grande on April 26 and got to Yakima on April 27. Visited with Mr. and Mrs. Thomas McKiver for two days. I was surprised to find Yakima so quiet a city. We went about by Mr. McKiver's touring car, and so saw much of the city and surrounding territory. We called on Harry Dills. He has run a large clothing store there for the past thirty years. Henry shot in the automobile business. We got to Seattle on the 29th, and stopped with our daughters, Mrs. Ida Fisher and Mrs. Alma Dahl, at 711 Seneca street at the Touraine Apartments.

"We went to the Woodland park the first Sunday with Mrs. Dahl and her friends. It is a fine large park, with buffalo, elk, deer and all kinds of wild birds and animals. We were to sail on the Alameda May 4, but, on account of the nursing strike, were unable to sail until May 17. We went to some fine shows while here and all around the parks and suburbs.

"The Northwestern had to take supplies to southeastern and northwestern Alaska. There were thousands of people down to see the Northwestern off. We started through the narrows at 8 o'clock, and were about one and a half hours going through. The morning of the 19th, we arrived at Queen Ann island, with a rain and high seas. Quite a few of the passengers were sick there. Several schools of porpoises were playing about the boat. Mrs. Miller and myself were feeling fine.

"At 1 p. m. we were at Bella Bella straits. The morning of the 19th we were in Dickerson's entrance and got to Cape Fox at 7:15 a. m. This is the American-British line. We arrived in Ketchikan at 11 a. m., staying there 22 hours. We called on Dr. Dickeman. Here we saw bears of ice, weighing 200 to 300 tons, on their way to the ocean.

"We arrived in Juneau at 10 a. m., after passing Douglas island, where the largest stamp mill in the world is located. Then we went 231 miles without seeing land. The boat carried 2,000 tons of freight and 300 passengers. The evening of the 25th, we saw a school of whales, ten to twelve playing and spouting water. We left Chedoke at 9 o'clock on the 26th, saw the steamer Olympia on the rocks. It has been there for the past eleven years. Got to Sitouche at 4:45 p. m., where there is a copper mine. Before arriving in Seward, we saw a mountain goat standing on a rock on the side of the mountain, and then saw in the emergency. From Seward we took a train, pay-

ing seven cents a mile for our tickets. We made twenty miles an hour. Where we stopped for lunch, the railroad men had a big black bear which the men wrestled with. On our way to Anchorage, which we reached at 9:30 in the evening, we passed one glacier of about 80 acres. We had a fine trip.

MARK TWAIN'S BOY HERO TO APPEAR IN FILM AT SHERRY'S

Huckleberry Finn has reached the screen. Mark Twain's immortal boy hero is the leading figure in an elaborate motion picture version of his adventures, which will be shown at the Sherry Theatre for two days, commencing today.

The cinema, "Huckleberry Finn" is declared to follow the text of the original faithfully, taking up the story when Huck and Tom Sawyer discover the robbers' treasure in the cave and following the adventures of Huck through the efforts of Widow Douglas to reform him to his abduction by his no-account father and subsequent encounters with the broken-down actors, the "Duke" and the "King."

The role of Huck Finn is in the capable hands of Lewis Sargeant, a boy actor of unusual talent.

VAUDEVILLE AT ARCADE WEDNESDAY

The regular four acts of Vaudeville will be presented at the Arcade on Wednesday and also another chapter of the big circus serial starring Eddie Polo.

"Toots" and "Pat" present a unique comedy number, in which the clever comedian is assisted by a highly educated and trained dog.

Davis and Nelson present a comedy number that is full of laughs from start to finish.

The Howitt Sisters are two charming young ladies that present several singing and dancing numbers in a most finished manner.

The highest act on the program is that of Fredericks, Ellsworth and Thomas, a singing trio who possess voices of quality. They have a fine repertoire of songs, some of them the college glee club type with lines that have a clever twist.

There will be one show in the afternoon starting at 2:15, and two shows in the evening, at 7:20 and 8:40.

Why Soap Cleans

Our forefathers discovered that ashes, mixed with water, give a smooth, slippery feeling and also that the mixture has cleaning power. The reason is that the ash is rich in soda or potash, both of which are good for scouring, but to use them alone is harmful to fabrics; so we combine them with fats and make a soap, but it is the alkalies (soda and potash) that cut into the dirt and grease and make it easy for the water to rinse them away.

Chinese Ruler Plays Safe

Governor General Yuan Tse-Li of Manchuria values his life too highly to take the chance with accidents. This is the Packard automobile he has shipped to him from New York. The name is of great value and it has heavy steel windows and a machine gun is part of the equipment. The three belts attached to the side are for guards who will

Poetic Preciseness

From a Literary Article—"The true poet will avoid such rhymes as 'spot' and 'noct,' which, though perfect to the ear, are inconspicuous to the ear." And also, we suppose, such combinations as 'dough' and 'cough,' which, though perfect to the eye, are un-likely to the ear.—Boston Transcript.

S. B. BAYTON, Record-Keeper

Old Letters.
"I never knew what sad work the reading of old letters was before that evening, though I could hardly tell why. The letters were as happy as letters could be. There was in them a vivid and intense sense of the present time, which seemed so strong and full as if it could never pass away, and as if the warm, living hearts that so expressed themselves could never die, and be as nothing to the sunny earth. I should have felt less melancholy, I believe, if the letters had been more so."—Mrs. Gastell, in "Cranford."

Two Extremes in Human Hair.
The two extremes in human hair are that of the Negro, flat in section and curly, and that of the Mongolian, which is round and straight.
