### When a Man Marries

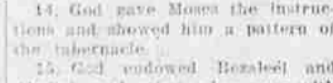

At a recent national conference of savings bank officials it was said that married men save more than single men—and more savings accounts are opened in June than in any other month.

So June, the month of brides—and sweet girl graduates and eager boys with the light of the world's battles in their eyes—is also the month of Savings Accounts.

But why limit this advantage to married folks? Everyone needs a savings account and now is the best time to start one.

And here is a good place—where good service and security of funds make our interest rate doubly attractive.
