Delightful in its colorful simplicity, was the large bridge party given yesterday in the spacious rooms of the Country club, by Mrs. M. B. Donahue, Mrs. W. R. Jones, Mrs. Charles W. Bingner and Mrs. Gilbert Hunter.

Twenty-seven tables were arranged in the charming club room, from the windows of which one gazes off into vistas beautiful, and the bridge games of the afternoon proved a most pleasant diversion. Highest honors were won by Miss Margaret Anson, while second honors fell to Mrs. Bruce Dennis, third to Mrs. Harry Grady, and fourth to Mrs. W. H. Bohmenkamp.

The rooms of the club house, which are attractive without any added pretense of decoration, were further enhanced by large bowls of roses and other flowers of pastel shades.

At an appropriate hour, delicious refreshments were served by the four charming hostesses, and their assistants, the same color scheme being noted in the ices, cakes, and dainty little fancy baskets of candies. Amiable conversation during the refreshment hour made the afternoon one of the most pleasurable ones spent by the ladies of La Grande for some time, and the varied colored organdy and smart dresses of the guests added to the party a picture long to be remembered.

Miss Hulda Anderson of the city was present, delighting all with her geniality and leadership in song. A social hour and refreshments followed the meeting.

Miss Christy Campbell arrived this morning from Chehalis, Wash., for a visit with her sisters, the Misses Mary, Kate, Belle and Etta Campbell. Clark, pastor of the Presbyterian church. The ring ceremony was used. The bride wore a dainty and charming gown of white organdy and carried a beautiful bouquet of pink and white carnations mixed with maidenhair fern. Those that witnessed the services were Mr. and Mrs. A. P. Nelson, Mrs. C. R. Paell and Miss Carmoline and Bell Gilbanks, all of La Grande. Following the ceremony, a wedding dinner was served, after which Mr. and Mrs. LeClair left for a wedding trip through Walla-Walla, Spokane, Wallace, Idaho, and on their return home they will come by way of Portland. Wise Uncle Jasper. Speaking of women and logic, a Chicago Tribune correspondent is reminded of a remark of his Uncle Jasper after a verbal barrage with Aunt Hepzibah. Flushed with retreat, Uncle observed: "There is only one person in the world, son, who is a bigger dem fool than a woman, and that is the man who tries to argue with her."

It Took All the Grit Mason had to Stick it Out

"Every time I go out on a run now, I feel thankful to Tanlae for I'm convinced that it kept me on the job," said William W. Mason, 1224 McClellan St., Philadelphia, for the past nine years a motorman for the Rapid Transit Co.

"I had stomach trouble in a bad form for three years and was going down hill fast. Nothing I ate agreed with me and after every meal I was sure to have heartburn, dizziness and sometimes awful cramps. I got in such a nervous condition

A SERIOUS QUESTION

If you should be disabled by either sickness or accident, would you become a burden on your family, or could you continue to provide for them in spite of your inability to work?

You wouldn't like to see your wife starting out to work each morning while you lay helpless in bed.

You wouldn't need to, if you carried one of our disability policies covering against either accident or sickness, which would provide you with a substantial income.

my hand shook like a man with the palsy and at nights my sleep was broken and restless. In the mornings I felt so miserable I used to dread the time to come for me to take out my car, and it took every ounce of grit I could muster to stick until quitting time. Finally I got so weak and was so discouraged I was ready to give up.

"This was my condition when I started taking Tanlae and I owe all my present good health to this wonderful medicine and to nothing else. The first thing it did for me was to whet my appetite and I soon found that I could eat anything without fear of bad after-effects. It's a fact, four bottles made a new man out of me. My nerves are quiet, I sleep like a log and wake up in the morning feeling fine. Then I eat a big breakfast and go to work whistling like I used to long ago. If people knew Tanlae like I do the clerks in the drug stores couldn't wrap it up fast enough to supply the demand. It's great."—Adv.

Opossum Pest.

The species of opossum native to New Zealand wears a very beautiful coat which does not resemble that affected by the opossum of this country. The animal which was introduced into Australia many years ago destroys fruit trees and is regarded as a pest, but opossum skins are so valuable that its value as a fur bearer outweighs any damage it may do to trees.

Isla of Pines.
The Isla of Pines is situated off the south coast of western Cuba, its nearest point to Cuba being about 35 miles distant. It is 370 miles north-east of the British island of Japan. The area of the Isla of Pines is 614 1-3 square marine miles, or about 521,387 acres. It belongs to the republic of Cuba and is officially attached to the province of Havana. The chief place on the island is Nueva Gerona. The island was discovered by Columbus in 1494, and was long notorious as a resort of pirates, but that of course, was long ago. Its population is about 3,000. The climate is similar to that of Cuba, that is, tropical.

Huck Finn Was Considered 'Harmful.'

It is interesting to remember when one sees "Adventures of Huckleberry Finn" listed as one of the 30 books necessary for all-around culture by the New York public library, that when the book was new, some 25 years ago, the Boston public library and others about the country refused to place the book in the circulating departments. The reason, as published, was that the book would be harmful to the youthful mind.—Milwaukee Journal.
