

GEORGES GOES THROUGH ROPES

THIS PHOTOGRAPH, SNAPPED IN THE FIRST ROUND, SHOWS CARPENTIER, JUST AFTER HE HAD MISSED WITH HIS RIGHT AND PLUNGED THROUGH THE ROPES UNABLE TO RECOVER HIS EQUILIBRIUM. DEMPSEY IS STANDING OVER HIM READY TO HIT WITH HIS RIGHT AS SOON AS GEORGES REGAINS HIS FEET.

HORSE JUMPS ON GEO. HYDE BREAKING THREE RIBS AT ROUND-UP

BAKER, July 7.—George Hyde, who was injured Monday night at a wild west show when a horse jumped on him, is reported to be resting easy today, though in considerable pain. He received three broken ribs, and it is thought possible a fourth was fractured.

Mr. Hyde was in the arena standing next to the front of the grandstand, when the horse ridden by Oliver Coon bucked into the grandstand and jumped on him.

FINAL PURCHASE OF BELLE OF BAKER AND MAMMOTH MINES MADE

BAKER, July 7.—Announcement has just been made by W. H. W. Hamilton, well known local mining engineer, that he made the final payment some weeks ago for the purchase of the Belle of Baker and Red Fox Mines, adjoining properties of the Mammoth mine in the Sumpster district, recently purchased by Mr. Hamilton.

these properties to the Hamilton Mammoth Mines, Inc., of which he is the manager and controlling owner.

What He Gets.
When Jones' rich grandmother passed away all his poverty-stricken friends rallied about him with words of cheer and comfort; but Jones remained sad and dejected. "She left a last will and testament, I suppose?" murmured Jones carelessly. "Oh, yes," said Jones, "she left a will and testament." They hung expectant while sobs choked back his words. "I," he declared at last, "am to have the testament."

BRALEY'S RINGSIDE RHYME

By BERTON BRALEY.

RINGSIDE, JERSEY CITY, N. J., July 7.—The lights are low in Gay Paree; the boulevards are sad, because the news from overseas is worse, worse bad. For gorgeous, Georges lost the fight, and Dempsey's champion still. The Frenchman is a sport all right—and yet he lost the mill.

It seemed to me, Carpentier, the smiling boy from France, was badly handled all the way and scarcely had a chance. His tactics seemed exceeding strange to one who watched the bout; he should have fought at greater range, just dodging in and out, instead of playing Dempsey's game and fighting close and hard—Oh, things won't ever be the same along the boulevard.

It was a splendid fight to watch, a battle full of blows, though Georges had a crimson spot on his nose, once had been his nose. He kept on fighting hard and fast, till Dempsey wore him down, and knocked him to his knees at last. Jack retains the crown.

Of fight promoters Tex is king; he started things on time, he didn't let 'em fall the ring with every sort of line; with has-beens and with various hopes and challengers and such; ah, so, he canned that bunch of mopes, we thank him very much.

Heart Strings Throb.
The crowd was great, a mighty mob that cheered for every blow. It sort of made your heart strings throb to hear them roaring so. It was a sight I'll long recall, and so it's safe to add, that by and large and all in all, a pleasant time was had.

Now Georges and the mighty Jack, each one can wipe his brow, as on the battle they look back and say, "It's over now." They've had their fight, they've got their pay and plus we end our rhyme with "Au revoir, Carpentier, and better luck next time."

Cells of Brain Cells.
It is thought that the nerve cells in the brain of a human being number something like 200,000,000. Their ramifying rootlets connect them one with another, and send out branches which extend to the most remote portions of the physical anatomy.

Right Giving.
He gives out but that gives most; but he gives what who gives best. If this I cannot give beautifully, yet I will give freely; and what I want to my hand, supply by my heart. He gives well that gives willingly.—Arthur Wrensch.

IMBLER GAME IN DISPUTE

NORTH POWDER APPEALS TO LEAGUE PRESIDENT.

Assertion Is Made That Winner Scored on Long Hit Without Touching Base.

Last Sunday's game between Imbler and North Powder in the Intermountain League is under dispute. North Powder has officially protested to President Al Turner of Union. The North Powder manager declares in his protest, which was filed yesterday, that Imbler had a man on third with a big lead off when a base hit was poked out and claim that the base-runner scored without retouching third and upon these grounds are asking for annulling of the game. The North Powderites were ahead in the sixth when the play occurred, but were behind at the end of the ninth.

President Turner has written to North Powder asking for a written statement from the umpire in regard to this particular play, and as soon as that is forthcoming will render his decision.

Material of Comet's Tail.
Exactly what comets tails are made of is one of the unsolved problems of astronomy, but the theory most generally accepted is that they are formed from particles of the comet itself, forced away by the pressure of sunlight, as they apparently increase in size and activity the nearer the comet gets to the sun.
