

TENNIS MATCH POPULAR HERE

WILSON'S VICTORY SPRINGS A SURPRISE—FEW PRESENT

Baseball Game Will Be Scorching—Picnic Friday Night Needs Big Crew of Workers.

When Lyle Wilson, of Imbler, beat Norman Freeze for the singles championship in the Y. M. C. A. tournament, he did several things, notably that of springing a distinct surprise to La Grander who believed Freeze would win, and, also, demonstrated that a crop of new players is coming up. Since the Y. M. C. A. tournament and its attendant publicity started, tennis has been an all-absorbing topic in several points outside of La Grande. Imbler was enthused about the game before Lyle took Freeze on the carpet, and certainly they are doubly so now. It has usurped the place of baseball. Union is showing almost equal interest, though the number of fans there is not numerically as strong as Imbler.

Wilson is a young man and has a splendid future in front of him. He works at it consistently a thing which Freeze did not do this year. However, Norman's defeat last week means that there is going to be a scorching match when these two men meet in next year's contest. The game in which the Imbler man won his laurels was a sizzler, too, though few people knew of it and the gallery was very small. Nearly every game went into double overtime and the pace from the very start was a burning one. Both men had their serves going beautifully.

Sunday's Game Hot One.

If intense interest from all points of contact means anything, next Sunday's game at the park is going to be a scorching. Cove, of whom much has been deservedly said, is coming over to meet the La Grander. Now, if there is anything all the clubs in the Intermountain league relish it is beating Cove, for only once has it been done this year. With a strong pitcher, as La Grande will have, and the universal desire to win over Cove, the contest should be well worth seeing.

Band a Ball Game.

In order that the crowd may be as large as possible from a La Grande point of view, the La Grande band last evening voted to attend the contest and add special features in the way of music. Cove's entire population will move over, it is said.

Big Party Friday Night.

Committees in charge of the Country Club picnic park cleaning last Friday evening went over the ground last evening and determined upon what is to be done to beautify the park site just across the way from the club house. The program mapped out may not be fulfilled Friday night but a good start will be made. All members who can possibly manage to get away should manage to be there. Rakes, picks, shovels, saws and hammers and other implements are needed. The plan is to come as soon after working hours as possible, and while the men toil, the ladies and kiddies will swim and then make a big supper. There will be plenty to eat for all bachelors. The good women who are bringing the "grub" are laying in extra supplies for those who have no wives at any time or whose wives are out of town.

Indian Cotton Cloth.

Indian cotton cloth is mentioned by Herodotus, and was known in Arabia in the seventh century. In Spain cotton was quite extensively grown and manufactured in the tenth century, but its manufacture was not introduced into other countries of Europe until some centuries later.

Highest Mountain in New York.

The highest mountain in the state of New York is Mount Marcy, a peak in the Adirondacks, which rises 5,344 feet above sea level. The average or mean elevation of the state, as estimated by the United States geological survey, Department of the Interior, is 900 feet.

Probably First Lottery.

The first lottery of which there is any authentic record was one held at Bruges in 1445 by some Italian merchants, who, possibly suffering from depression in trade and being ignorant of modern clearance sales and "bargain basements," endeavored to dispose of their wares in this novel way.

Forgetful Daddy.

Jimmy had always noticed that when his father went to work on rainy days he wore rubbers. One day after his father had gone he noticed that the rubbers were still in their usual place, so he ran to mother and said: "Oh, mother, daddy didn't wear his rain slippers today."

Wanted His Money's Worth.

The newly-riches were seated in their handsome drawing room. Mrs. Money-Riches, at the grand piano, in elaborate period and fur robes, with her finger "fingering" it all, addressed the newly-riches, "I want to see if I can get a piano that will last for a long time, and be a credit to the family."

186 SAME EVERYWHERE.

The editor of Patsa Akhbar, a native newspaper of Lahore, India, says: "I have used Chamberlain's Colic and Diarrhoea Remedy many times among my children and servants, for colic and diarrhea and always found it effective."

ENCHANTING MILLINERY

Whenever fashionables congregate on an afternoon or evening in the coming summer, our eyes are destined to feast upon such enchanting millinery as that shown above. In this group of four hats both France and America are represented by models that vie with one another. The topmost hat, from Paris, is made of a fabric having black cellophane figures on a henna-colored silk background. Another French hat approves this long draping at the side, as shown in the round hat of navy blue crepe with band of pink crushed roses. Navy blue was chosen, having black cellophane decoration, for its handsome rival with black lace veiling the eyes and American further distinguishes itself in the all-black satin hat with cellophane trimming and long lace veil that finishes the picture.

NOVEL SUITS FOR SPRING

Many of the style features that distinguish this season's suits are attractively combined in the trim model, with its straight-line silhouette, that invites study here. Beginning with this uprightiness of line it adds the flaring sleeve, the old management of pockets, simplicity and cleverness in its decoration to appeal to the woman who likes smart suits that follow new styles in a conservative way. The very simplest of embroidery is used on it but it is especially effective—especially where it defines the arm's eye.

FORECASTING SPRING

This lovely frock of gray crepe-de-chine may be taken as a criterion of the spring styles for afternoon wear. It fulfills all the requirements of the mode, beginning with the most important, and that is simplicity. It has a slip-over bodice, fastening on the shoulder, a long tunic laid in plaits and a plain underskirt. Between the high and the low waistline it chooses the latter and makes a compromise between long and short sleeves with the three-quarter length, flaring style. Spring is written in all its details but emphasized in the system of embroidery and silk disks that make up its decorations. The odd opening at the front, which distinguishes this dress, revealing a little button-trimmed vest of lace, is a feature of the new style. Often it imparts a bright color.

MISTER TRUG, CAN I PLEASE GET OFF THIS AFTERNOON AND GO TO THE BALL GAME?

WHAT!! GO TO THE BALL GAME WITH THIS OFFICE BUSINESS!!

VERY IDEA!! THE VERY WELL, YES, YOU CAN GO, BUT I'M GOING ALONG TO SEE THAT YOU DON'T CHANGE YOUR MIND AND ATTEND JONE'S FUNERAL!!!

Curfew Has Worked Well.

In the Middle Ages a bell was rung as a signal for fires to be covered up for the night and consequently for the people to go to bed. The word curfew is derived from the French words, *courir*, to cover, and *feu*, fire. In the United States a curfew has been sounded to warn young people to be within doors unless accompanied by adults. It is said that over 3,000 towns and cities in this country now have curfew ordinances and some of them report as large a decrease as 90 percent in juvenile delinquency since the enactment of such laws.—Exchange.

Forms of Insanity.

The Art Alliance, at a meeting in Philadelphia, took uncommon steps to diagnose and classify "modernist art." The alliance called in two specialists, Dr. W. S. Wadsworth and Dr. Charles W. Burr, who are by profession alienists. They examined all the symptoms and their decision was "insane." Now, if the same test could be applied to verse artists we might get some valuable information as to the mental state of some of our poets.—Philadelphia Record.

So It Does.

The teacher had been giving a lesson on the reindeer—its habits, habits and usages. One boy was not paying a bit of attention and the teacher pounced on him. "Now what is the use of the reindeer?" she asked him. The startled creature looked up, paused a minute and then said: "It makes things grow, teacher."

"Code of Hammurabi."

The "Code of Hammurabi," a set of laws made by King Hammurabi of Babylon, 1800-1750 B.C., was found in 1901 A. D. in a gypsum tablet, 7 feet high. The code contained 282 sections dealing with all sorts of questions. The law of robbery was stated thus: "If a man bear witness in a case for gain or money he shall himself bear the penalty imposed in the case." Breaking into mail trucks was punishable by death. "The old law of an eye for an eye and a tooth for a tooth" was maintained by him long before the same law was stated by the Hebrews in the old Mosaic law.

Forceful Evidence.

A lawyer was once, in a court case, called upon to defend a large thief. He did not know that the thief had pleaded guilty and was in an impassioned speech in the man's defense. He believed he had made an impression and the man would be acquitted. But the judge's attention in disquisitioned him. "You have heard his counsel," the judge reminded the lawyer, "and there were the 100,000 men and the learned counsel of the state."

All There.

A mosquito has 22 teeth. In addition to which there is a tail that stings; like a dentist's.—Detroit News.

They Sometimes Get Cold.
The vast of the transgressor is hard, but we never heard any complaining of temperature.—Boston Transcript.

Erasing Rubber.

There was a Philadelphia man, Hyman L. Lipman, who noticed that when writing with a lead pencil it was inconvenient to rub a piece of erasing rubber to rub something out. It is the habit of a piece of erasing rubber to disappear mysteriously; everybody had noticed it. But if the butt end of the pencil contained a small eraser, it cannot get away. This was the idea that struck Mr. Lipman, who patented it. It brought him a fortune.

The Bedouin of the North.

The Indian living entirely out of the forests in the north country is an incongruity, or at least seems odd and incomplete, like a picture out of frame. When we see him a woodman, it is in his very best pose. He is the wise man of the wilderness, the Bedouin of the green deserts. Painfaced, sturdy up from the cities do well to avail themselves of his care and guidance, which is at all times faithful.

Bandages.

Every household should keep rolled bandages ready in case of accident. They should be torn from strong cotton cloth and wound tightly. Make them of various widths and when rolled set them in a pan in the oven for a short time to sterilize them; then pack in a wide-mouthed preserve jar and screw on the lid. Keep the jar in a convenient place.

Composition of Adamant.

In modern mineralogy this term has no technical significance. It was supposed to be a stone of impenetrable hardness. This word is used in referring to substances of extreme hardness.

No Final Forms of Art.

There are no final forms of art because, truth has always new beauty to reveal and beauty new truth to illustrate.—Hamilton Wright Maier.

Cable of Human Hair.

It was the custom of the Chinese people in Japan to give some of their hair to a free-will offering when a temple was being built. Such a structure at Tokyo had the beams and rafters held in place by one of these human-hair cables. Placed end on end, this human-hair rope measured 4,328 feet long, was seven inches in diameter and weighed 5,847 pounds, no fewer than 350,000 persons contributing before sufficient quantity was obtained.

Watch Your Papers.

Look out for the broom and dust pan. Many valuable papers may be swept out of existence if you do not have a good system that insures these papers and records being properly cared for. No one should make a transaction on a slip of paper and carelessly put it into his pocket. A good system of accounting will do away with memoranda pads of record and consequent danger of loss by the broom and dust pan route.

BILOUSNESS AND CONSTIPATION.

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally," writes Mrs. Rosa Potts, Birmingham, Ala.—Adv.

Just the Thing.

A cold glass of Soda Water comes in just right these really warm days. You will find just what you want at Silverthorn's Fountain of the best and purest material made.

Eye on the Ball, Prince!

The Prince of Wales puts up a strenuous game of tennis. He is here shown on the courts of the estate of Lord Epsom, London, where he is looking—eye at the ball!

BAD BREATH

DO YOU WANT your friends to avoid you? They will certainly do so when your breath is bad. There is no excuse for anyone having a bad breath. It is caused by disorders of the stomach which can be corrected by taking Chamberlain's Tablets. Many have been permanently cured of stomach troubles by the use of these tablets after years of suffering. Price 25 cents per bottle.

Chamberlain's Tablets

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any, more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste.

It's Camels for you.

Camel

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.
