UMATILLA CROPS AVERAGE GOOD

PENDLETON, July 29.—The wheat yield of Umatilla county will average 28 bushels to the acre and there will be a five million bushel wheat crop with a total grain yield of six million bushels in the county. This is the view of H. W. Collins, who by reason of his business operations has a close check on conditions.

Harvesting reports show that the yield in the best land sections is heavier than usual but is not proportionately as great as in the lighter land regions. Most gratifying reports are heard of yields north and west of Pendleton but as usual the best crops are being harvested on the reservation.

With approximately one-third the wheat of the county sold or contracted for there is at present a lull in wheat buying. The lack of business at present is attributed more than anything else to scarcity of ocean tonnage. The larger ocean carrying companies are said to be booked up for several months in advance with the result that tramp steamers alone are available for shipping at this time.

CONTRACT MARRIAGE USED BY U. OF W. BUSY PROFESSOR

SEATTLE, July 28.—Dr. Leslie Spier, teacher of anthropology in the department of sociology at the University of Washington, has entered into a marriage contract by which he has been married to Miss Erna Guether, of Brooklyn, in a New York justice court. The signing of the marriage contract by the couple constituted the ceremony. A marriage of this kind is legal in New York state but very unusual. Dr. Spier and his bride will return to Seattle in the fall. There has been some question as to their status on reaching the state of Washington.

WANDERER REPRIEVED

SPRINGFIELD, Ill., July 29.—Governor Small, through his office in the capital, yesterday granted a reprieve to Carl Wanderer until September 30. Wanderer was sentenced to hang today for the murder of the "ragged stranger," an unidentified man, in a fictitious hold-up when Wanderer shot and killed his wife.

Intervention for Wanderer that a commission might examine him again for his sanity was made yesterday by William R. McCauley, state commander of the American Legion.

In Cheerful Mood.
 CHICAGO, July 29.—Carl Wanderer, convicted slayer, who was to have been hanged today was taken from the death cell when word of his reprieve was received from Springfield. Wanderer smiled at his guards and said:

"Well, I guess my wife will have to wait a while before she sees me."

"Pike's Peak."
 Gen. Zebulon Pike of the United States army saw the peak in 1803 and is generally regarded as the first white man to discover it. This is disputed, however. The first ascent of the peak was made in July 14, 1829, by Dr. James, a geologist. Pike had reported that the peak could not be climbed. Nowadays many tourists get to the top of it every day during the summer by automobile.

L. D. S. TO BUILD A NEW TEMPLE

MESA, Ariz., July 29.—Out here in the center of the Great American desert, the Mormons are to build another temple, second only to their tabernacle at Salt Lake City, President Heber J. Grant, of the Mormon church has announced.

The Mesa temple, when finished will be the ninth the church has built. The others are at Kirtland, Ohio; Nauvoo, Ill.; St. George, Logan and Salt Lake City, Utah; Cardston, Alberta, Canada, and Laie, Hawaiian Islands.

Work on the temple here will start in September, it was announced. The building will cost approximately \$500,000 and will be completed within a year. Many church dignitaries will attend the ground-breaking ceremonies.

The temple is to be built on a tract of 40 acres in the eastern section of Mesa.

Threatens Man with a Knife—Bail Is \$3000

North Powder Farmer Gets in Bad in Baker as His Crop is Ready to Harvest.

BAKER, July 29.—Coming to the county seat to see the county judge to get the county to build a small bridge near his home, Wednesday morning Guy Trotter, colored, found a warrant waiting for him and was placed in jail charged with assault with a knife. The charge was sworn to the day before by another colored man named Ward.

In the meantime Deputies Anderson and Patterson were on their way to Trotter's home near North Powder with a warrant for his arrest. However, their trip was not fruitless, as in their search they were also in quest of moonshine evidence, of which a quantity of mash was found, which they think belonged to Trotter. In visiting a farm house they also found several gallons of corn and prune mash, a still in operation and some two gallons of the liquor. Gaylord Linville was arrested for operating the still. He was brought to Baker and yesterday evening plead guilty before Judge Anderson and was fined \$100.

Trotter is said to have about 1000 acres of dry land leased, near North Powder, toward Thief valley. Some 200 acres of the land is in crop and will soon be ready for harvest. The grain looks good and will make a good yield, it is said.

SEPTEMBER 7 SET AS DATE FOR SALE ROUND-UP SEATS

PENDLETON, July 29.—Business at the "old stand" will begin September 7 when the Round-up seat sale opens in the same old spot on Alta street near Tallman's Drug store with Ernest Boylen, true to the tradition of "a Boylen is the ticket office," handing out the previous postboards for the three days show, September 22, 23 and 24.

Undoubtedly the customary number of Round-up fans will sleep in the street the night of September 6 in order to be the first in line when the sale opens. Last year, as in previous years, a row of cots in the street formed the resting place for early seat buyers.

Seats this year will cost \$2.75 for box seats, \$2.20 for grandstand and \$1.25 for bleachers. Boxes will be sold only on a three day basis and cannot be bought for one or two days. Each box contains eight seats and the total cost is \$66 for the three days. Prices for all seats include the war tax.

A section in the grandstand and three boxes have been reserved for the Journal special, which will bring 300 guests to the big show. The special will arrive on the morning of September 23 and remain until after the third day's show.

Easy to Check Sneezes.
 As many know, sneezing may be averted by pressing firmly upon the upper lip with the fingers. The "why" of this is that by so doing we deaden the impression made up a certain branch of the "fifth nerve," sneezing being a reflex action excited by some slight impression made upon that nerve. Proof of this is seen in the fact that sneezing never takes place when the nerve mentioned is paralyzed, even though the sense of snuff be fully retained.

Time's Wandrous Changes.
 Archaeologists believe that even in the Stone Age direct maritime relations existed between northern Japan and the distant countries to the south.

GOVERNOR NOT YET ARRESTED

SHERIFF IS AWAITING SMALL'S RETURN.

Arrest in Chicago is Refused by Sangamon Authorities; Court Action is Expected.

SPRINGFIELD, Ill., July 29.—Governor Small's attitude toward "conditional surrender" to Sangamon county authorities awaiting to arrest him on charge of embezzlement and conspiracy to loot the state treasury while he was state treasurer, had not been made known to Sheriff Mester last night. No response came from Chicago to his message refusing to place the governor under arrest in Cook county, as proposed by Albert Fink, counsel for the governor.

Sending a plan, they said, to involve them in habeas corpus proceedings in Cook county, the sheriff and State's Attorney Mortimer declined the overtures of Mr. Fink, and are awaiting the governor's return here.

A writ of habeas corpus, it was pointed out, could not be obtained until the governor is arrested, and nothing but time would develop in the case while he remained away from the capitol. For this reason county authorities looked for the governor's early return here.

Following one of yesterday's conferences the governor announced he was ready for an immediate trial. "I want an immediate trial," he said. "I have no fear of the outcome if I have an honest hearing. I know I cannot get a fair trial in Sangamon county."

Governor Moves in Secret.

CHICAGO, July 29.—Mystery last night marked the movements and plans of Governor Small, following a day of conferences with his attorneys and advisers.

Eluding newspapermen, the governor went from his hotel to the home of Albert Fink, his chief counsel, and then to a downtown office for an afternoon conference.

Newspapermen who watched Mr. Fink's office, where the attorney said Tuesday night in a telegram to Sheriff Mester of Sangamon county the governor would be today, prepared to surrender to arrest, failed to see either Mr. Small or his lawyers.

Refusal of the Sangamon county authorities to come here and arrest the governor, and their expressed willingness to await his return to Springfield, upset plans laid for a hearing on habeas corpus proceedings before a Cook county court.

While friends of Governor Small announced that he had left for his home in Kankakee, the governor had not arrived there last night, according to members of his family.

It is understood generally that the executive has left Chicago, it now being believed he has returned to Springfield.

When Your Hair Needs Attention.
 Your hair needs attention the moment you detect the first speck of dandruff or the first few falling hairs on your shoulders. The first process is that of cleansing with a good Germicide; the second necessity is that of a good hair tonic that fertilizes the hair roots and aids in hair restoration. In shampoos and hair tonic we sell everything that you could imagine. All the standardized items and many specialties of our own production. But the real hair preparation is Silverthorn's Germicide Hair Tonic at 78c a bottle.
