Riverside Park was recommended and the date has been set for two weeks hence. The band members and their families will gather at 6 o'clock and give themselves over to good fellowship and then about 7:30 or a little later, will render a concert at the park to which the public is cordially invited. Save Your Eyes The man of sense is he who best preserves those faculties with which nature has endowed him. Glasses are not an evidence of weak mind, but rather of strong intellect. In this day of conservation, men and women of strength, both mental and physical, wear them for preservation of nerve force and vitality, as much as for betterment of vision. Those at the forefront in worth while work are using every possible means to keep themselves fit and efficient and no man can be efficient with defective eyes uncorrected. Our equipment and methods are the most modern and accurate for the correct EXAMINATION of the eyes, and the prescribing of correct Glasses where needed. BY J. H. PEARE & SON Optometrists
