World's Smallest Coupe

Eugene Pawlowicz, of Milwaukee, has the smallest coupe in the world. It has pneumatic tires, wire wheels, electric lights, upholstery and plate glass windows. All it lacks is a motor, but foot pedals make up for that. Eugene's dad made it for him and it is valued at \$200.

Bearing pears	88
Non-bearing pears	2
Bearing prunes	214
Non-bearing prunes	15
Loganberries	5
Blackberries	12

DIK SEZ

Louise Fazenda has been engaged by Constantin Productions to appear with Raymond Hitchcock in "The Beauty Shop." The Fairbanks twins—late of the "Follies"—will also be in the picture. But Polly Moran won't!

Hugo Ballin has made "Jane Eyre" for Hodgkinson with Mabel Ballin—his wife—in the title role, supported by Norman Trevor. Twill be released by Eye long!

Vera Gordon—"The Greatest Mother of Them All"—(with the necessary apologies to the Red Cross)—has begun work on a picture thus far unnamed. And if she's even half as wonderful in it as she was in "Havoc"—Nuf ced!

Chas. Horgan will direct Grace Davidson in a new production tentatively titled "The Girl Who Came Back." Hope she has better luck than Bob Fitzsimmons—he tried to and couldn't!

Hodgkinson will issue "Cameron of the Royal Mounted," the screen version of Ralph Connor's famous novel. There's an all-star cast in it that reads like a benefit performance!

"Out of the Shadows," directed by Roy Shelden, will see the light (1) shortly. Walter Miller, Paul Panzer—who, by the way, is one of the screen's deepest-dyed villains—a man whose "dirty work" has been going on since long before "The Perils of Pauline"—Hazel Flint and Norma Shearer are in the cast.

Ethel Clayton's next picture for Famous Players-Lasky will be "The Cradle" by Eugene Brieux. Too bad she couldn't make it for Rockett Brothers! Cradle—Rockett—get it?

The clothes that Thomas Jefferson wears in "Rip Van Winkle," his first picture for Hodgkinson, were worn by two generations of Jeffersons—including the famous "Joe"—before him. That's one way to whip the H. C. of L.

Buster Keaton has completed "The Playhouse" for P. M. National and will start "The Blacksmith," suppose he'll make it under a spreading chestnut tree.

R. W.

There will be no evening service on account of the union services at the Christian church. Sermon by Rev. A. R. Sitten of the First Baptist church, and, as this is the last of the union services, let us make it the best. The public and strangers in the city are cordially invited to attend all these services. Come then and go with us and we will do thee good.—C. F. Beldin, Pastor.

An Invitation to Teachers.

There will be several new teachers in our schools this fall, and without waiting to learn their names Silver thorn wishes to especially invite them to drop into this drug store and make themselves known as teachers and receive the courtesies he desires to extend to all the teachers of the public schools and high school. 8-25-21

Worth \$85?

Twenty imported hats were auctioned off for \$1100 at the retail market show at New York. Here is one of them. Is it worth \$85? It is a beautiful fashion of silver-gray tulle with a black shawl collar and a black bow. While there is a suggestion of the eastern accent, the texture of the tulle and the beauty of the design make it a masterpiece of modern hat design.

London's Unemployment Fire

"Wanted 60 men in lumber yard." Four thousand answered this ad in London. After 60 had been accepted the gates were closed. Rioting broke out and soon the lumber yard covering 17 acres was a mass of flames. Here's a general view of the fire. Loss \$5,000,000.

Why Rich men Want More.
The reason a rich man is never satisfied with the size of his fortune is not necessarily because he has acquired a kind of hog instinct, but rather because his knowledge of affairs and his breadth of vision have grown until he sees bigger and bigger things that he wishes to do; and his ambition to accomplish is always a few leads ahead of his capital. The richest men in the world are usually the heaviest workers, because they are in a position to see the most to be done. Hence any man setting out to get rich might as well recognize at the beginning that from the very nature of things, he can never hope to feel that he has enough.—Fred Kelly in The Nation's Business.

RETURN TO PORTLAND TODAY.

After a delightful visit with their daughter, Mrs. H. M. Bouvy, Mr. and Mrs. P. H. Chambeau of Portland returned to their home today. Mr. Chambeau is prominently connected with the United States National bank of the metropolis and says Union county is not the only place that is having financial furries. "But," he continued, "we must not expect the boat to ride too smoothly all the time or there would be no fun. These are times that test men's ability to handle things and therefore develop financiers."

WILL LECTURE IN LA GRANDE

On Tuesday and Wednesday evenings at 8 o'clock, Rev. W. E. Waelchli of Pennsylvania will lecture in the Neighborhood Club rooms of the library building. The lectures will be of a religious nature setting forth the spiritual philosophy of Emanuel Swedenborg and will give light on Bible questions according to this belief. Those who appreciate thoughtful versions of religious questions should attend. There will be no admission.

It has got to the point in Portland when Billy Sunday is to preach the newspapers give the event inside stories and few of them. And yet Portland has never heard a minister like him and a sermon by Billy Sunday is almost a national event, no matter where it is preached.

LABOR DAY THREE BIG BANDS

will be observed in La Grande this year with three cities participating.—Pendleton, Baker and La Grande, with the Central Labor Councils of these three cities arranging the program with the assistance of commercial bodies in their respective cities.

TWO SPEAKERS

Affairs of the great labor movement, and topics of direct interest to the laboring classes will be discussed by prominent speakers immediately after the parade, with seating provided for several thousand on the streets in front of the Elks' club and Eagle's hall.

Parade—Big Feature

The first formal number on the program will be the parade to which the public is invited to give its attention with commercial floats. Labor will be on parade in full strength.

Save Your Eyes

The man of sense is he who best preserves those faculties with which nature has endowed him. Glasses are not an evidence of weak mind, but rather of strong intellect. In this day of conservation, men and women of strength, both mental and physical, wear them for preservation of nerve force and vitality, as much as for betterment of vision. Those at the forefront in worth while work are using every possible means to keep themselves fit and efficient and no man can be efficient with defective eyes uncorrected.

Our equipment and methods are the most modern and accurate for the correct EXAMINATION of the eyes, and the prescribing of correct Glasses where needed.

Heating The Home With A "HUMIDOR"

"Humidity for Health"

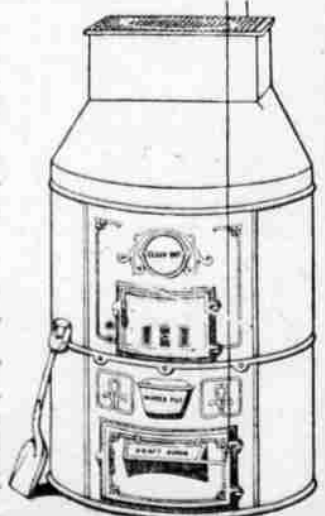

The best furnace on the market

All HUMIDOR furnaces are equipped with ALL cast radiators and triangular clinker-crushing grates as regular equipment and no extra cost. Registers also are cast and EXTRA LARGE.

Fire bowl is in two sections, which prevent fire crack so common to the old style one-piece type. All joints are double-grooved and set in asbestos cement, making them gas tight.

Both outer and main inner casings are rust proof galvanized iron. Inner casing is lined with both asbestos and bright tinne corrugated steel, making a triple wall of insulation.

Main front is full cast with cast offset, or wings, giving a rigid, substantial construction, which likewise is easily fitted to the casing. Each furnace is equipped with cast water pan located directly under the fire door for convenience, and coming in close contact with the fire bowl itself to insure generous evaporation so essential to winter health. (It is a generally accepted fact among doctors that a large percentage of colds is due to lack of HUMIDITY in artificially heated rooms.) It is because of its wonderful humidifying qualities that our furnace has been named the HUMIDOR.
