

NEW FALL

CLOTHING

For Boys

We are showing dozens of good looking suits for boys in an endless variety of patterns and styles.

There are browns, grays, greens, blue, etc., in fancy woolen mixtures. Also suits of cashmere and plain serges. All sizes represented.

Hill's Dep't Store

The Blue and the Gray

The blue and the gray certainly seem to have formed a permanent alliance. The smart Louis Grauer gown of drapella is combined with trimmer and indestructible chiffon voile. Krimmer is used in bands on the sleeves and on the high collar and buttons while the indestructible gray voile forms long drapes at the side which reach below the ankle.

NOTICE.
All members of the L. A. B. of R. T., No. 403, are requested to be present at our regular meeting, Tuesday evening, September 6th, at Eagles Hall. Special business to be discussed concerning our Grand President, who will be in Portland September 28th.

Call the La Grande Employment Office for your help. Always at your service. Phone Black 801. 8-8-15

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the round, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however a man past middle age will occasionally eat too much of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done there is no reason why the average man should not live to a ripe old age.—Adv.

ARTESIAN WELL SPOUTS AIR NOW

Cold Air Used for Refrigerator in New Jersey; Also Keeps House Cool.

NEWARK, N. J., Sept. 3.—An artesian well which years ago ceased to produce water and now sends forth a strong blast of cold, dry air is the property of Mrs. Jacob Lowenstein, who uses it to cool the refrigerator, to dry the washing and keep the house cool in hot weather.

At one time, Mrs. Lowenstein said, the air blast was so strong that its roar could be heard a block away. Neighbors complained and an attempt was made to close the well by filling it with sand and gravel but the current was so strong that the stones were blown out of the shaft.

Mrs. Lowenstein then had the well capped and arranged a system of faucets by which she floods her house with the cold air as she desires. It has replaced ice in her refrigerator and dries the washing in less than an hour. During the hot months her home is popular with the neighbors whose electric fans are ineffective in comparison to Mrs. Lowenstein's cold air blast. In rainy weather a blast of the dry air drives out the dampness in a short time.

The well was driven thirty-seven years ago and since it went dry has poured forth the air current continuously and without variation in force. George Sanzenbacher, engineer of the Newark Water Department, has examined the well and is unable to give any explanation for the phenomenon. It is 79 feet deep and for the first ten years produced excellent water.

Flag Day Observed Since 1889.
Flag day, June 14, is the anniversary of the adoption of the Stars and Stripes by the continental congress in 1777. The day has been more or less observed since 1889. In that year George Bloor, a New York teacher, commemorated the birth of the flag with special patriotic exercises by his kindergarten pupils. Patriotic societies took up the observance and flag day has become well established.

A Pronounced Success.
The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically without a rival and as everyone who has used it knows, it is without an equal.—Adv.

MADONNA AND MEN

Carries the absorbed spectator from the revels and blood lust of ancient Rome to the revels of night life in New York. Nothing so tensely dramatic ever before conceived by the brain of man.

A story so startlingly realistic, so remarkably dramatic and so perfectly produced that it stirs to the very depths the emotions of all who see it.
