Responsibility for Page Ad.

The Evening Observer is sure that there is a misunderstanding regarding the page "ad" which appeared Saturday containing the Labor Day program and names of business firms surrounding this program.

This paper had nothing to do with the origin of that page, nor did the Labor Council. The space of one page was purchased by Mr. W. M. Dymally, who is employed in the mechanical department of the Observer. Mr. Dymally employed another young man, also employed in the mechanical department of the Observer but who was in no way connected with the management of the paper nor with the Central Labor Council, to assist him in the soliciting. Any statements made by this party, threats of boycott, etc., were made on his own responsibility and should in no way reflect on his employer, Mr. Dymally; upon the Central Labor Council, nor upon the Observer management.

We make this statement so that all may know that neither the Observer nor the Central Labor Council had any connection with the "ad" for it was space bought as any individual buys space in this newspaper.

We might add that the party mentioned is no longer in the employ of this newspaper.

Here's hoping Senator McNary is strong enough not to let Oregon's litigation be pigeonholed in the same way Senator Chamberlain permitted it to be done.

THE OFFICE CAT

By JUNIOR

THE GOLDEN RULE.

We have the wisest teacher, and she has this rule:
That helps us in our lessons—you can use it in your school:
Always add a smile two when things are going wrong.
Subtract the frowns that try to come when lessons seem too long.
Then multiply your effort when the figures won't come right.
Divide your pleasures day by day with everyone in sight.
Now if you always use this rule you'll have a happy day.
For lessons then are easy, and the hours fly away.

Last night was a great night to sleep—and just what have you done to deserve it.

A La Grande statistical sleuth advertisement held hair for women because he says girls waste 6,345,600,000 hours per year "doing up" their tresses.

The Office Cat advocates slipped noses because girls waste 9,657,987,399 hours per year powdering that organ.

"It went twenty miles on a gallon yesterday."

"That's nothing; I went two months on a quart."

Farewell, brides of June. By now the first glamour has departed. Honey, once a cross between a motion picture hero and a plumed knight, is now a lot like other men, inclined to be careless in his dress, and eternally hungry. Dust gathers in the new home much as it does in mama's, and the grass needs cutting when the plumed knight gets up the necessary steam. After June the bride becomes just another married woman.

QUALIFIED.
Employer: "You say you have held an important position?"
Applicant: "Yes sir."
"What was it?"
"I was hangman at the State prison."

VERY LIKELY.

Veteran of Civil War Hale and Hearty

GEORGE D. SHAW, Springfield, Massachusetts.

"To say that I feel twenty-five years built up, I now weigh one hundred younger, twenty-five years healthier and forty-three pounds and my stomach and twenty-five years stronger each is as sound as a dollar. In fact, presses what Tanlac has done for me I believe I could eat the old army ration better than any other way I can put it again without it hurting me in the least," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me."

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderful"

West & Co. THE QUALITY STORE

Ladies "Armstrong Shoes"

Real Economy Exists only in High Grade Footwear

With the lowering of shoe prices which is practically 33 1/3 per cent, we find that many manufacturers are lowering the quality in their shoes; cheaper skin, cheaper workmanship, cheaper sole leathers, etc. — make longer profits for the manufacturer, but less economy for the wearer. And for this reason we have dropped from our stocks, four distinct lines of ladies' footwear for the coming season. ARMSTRONG shoes, without a doubt, represent more in actual economy than any shoe on the market today. Five years of handling has given us this experience. Our shoemen will gladly show you their merits. Perfect fitting long wear, and comfort throughout. Here are recent additions to our stocks:

Seasons Accepted Styles

Black Kid, Military heel, well sole medium last. All sizes, AAA to D widths. Price:

The Ideal Purgative.
As a purgative, Chamberlain's Tablets are the exact thing required. Strong enough for the most robust, mild enough for children. They cause an agreeable movement of the bowels without any of that terrible griping. They are easy and pleasant to take and agreeable in effect.—Adv.

No Substitute Offered.
Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy when the best medicine for

Diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon.—Adv.

Heating The Home With A "HUMIDOR"

"Humidity for Health"

The best furnace on the market

All HUMIDOR furnaces are equipped with ALL-CAST radiators and triangular smoke-crushing grates as regular equipment and no extra cost. Registers also are cast and EXTRA LARGE.

Fire bowl is in two sections, which prevent fire crack so common to the old style one-piece type. All joints are double-grooved and set in asbestos cement, making them gas tight.

Both outer and main inner casings are rust proof galvanized iron. Inner casing is lined with both asbestos and bright tinned corrugated steel, making a triple wall of insulation.

Main front is full cast with cast offset, or wings, giving a rigid, substantial construction, which likewise is easily fitted to the casing. Each furnace is equipped with cast water pan located directly under the fire door for convenience, and coming in close contact with the fire bowl itself to insure generous evaporation so essential to winter health. (It is a generally accepted fact among doctors that a large percentage of colds is due to lack of HUMIDITY in artificially heated rooms.) It is because of its wonderful humidifying qualities that our furnace has been named the HUMIDOR.
