

THRESHING OF WINTER WHEAT NEARING END

Rains Heavy in Central West and Seeding Is Interfered With; Out Crop Disappointing.

WASHINGTON, Sept. 21.—Crop conditions for the week ending September 10 are covered in reports received by the Bureau of Markets and Crop Estimates, United States Department of Agriculture, from its field statisticians in the different states.

Threshing of winter wheat from the stack still continues, but is nearing completion. Plowing and preparation of the soil for seeding has been making good progress and considerable seeding has been done. Seeding and plowing have been delayed in Missouri due to excessive rain. More rain is needed in Nebraska and Central Kansas, and in the Middle Atlantic States.

About twenty per cent of the spring wheat crop still remains to be harvested in Montana. Yields are somewhat below expectations, due to damage from rust and recent snow storms.

Threshing of the oat crop is practically completed, with the exception of some stacked oats. Threshing returns continue to show low yields and inferior quality. Moisture is needed in the Southern States to facilitate fall seeding.

Potatoes. Late Irish potatoes show some improvement in the North Central States, due to recent rains, but it is feared that the setting of tubers is light. Recent frosts have killed the vines in Montana, but a fair to good crop is expected. No frost damage is reported elsewhere. The early crop is practically all harvested throughout the country and low yields have generally been reported. Harvesting of the late crop is in progress in some sections and very unsatisfactory yields reported.

Fruit. Winter and late fall apples are increasing in size in many sections since the rains, but the total yield will be very low. The condition of the apple crop in Oregon is deteriorating, due to the drought. Grape picking is being rushed in Western New York as grapes are reported to be dropping due to the heat. The cranberry crop in Massachusetts and New Jersey is reported as being fairly good.

Live Stock and Pastures. The condition of livestock is generally favorable, and with the exception of a few scattered reports of hog cholera no disease is reported. There is considerable complaint of a scarcity of cattle and hogs for feeding purposes. New seedlings of clover are showing some improvement. Meadows and pastures are generally favorable, except in some sections of the Eastern Atlantic States and the Central States where rain is badly needed. The outlook for winter feed is generally fairly good.

ENID BENNETT AT THE SHERRY THEATRE TODAY

Rowland Lee, who has the role of Princeton Hadley, the sacrificing lover of the Ince-Paramount picture, "Her Husband's Friend," starring Enid Bennett, which is to be featured at the Sherry theatre for the last time today, was playing both ends toward the middle and didn't know it. In other words, "Prince" was fulfilling a financial obligation of a friend who had been killed, and when he fell in love and made an attempt to have this obligation lessened so that he might marry the lady of his choice, he found that the object of his financial contributions and the object of his affections were one and the same person.

And when the girl discovered who had been supporting her she almost forgot that she loved him and that he loved her. In fact she so far forgot that it took a spectacular automobile accident and a corpse of how

In "Anatol" Agnes Ayers. She is one of the 15 stars Cecil DeMille employed in making the screen version of "The Affairs of Anatol." Wallace Reid has the role of Anatol.

270,000 Miles!

Seneca Hilroy, 18 1/2. F. Lamberth, 51, shown here at the White House, says he has walked 270,000 miles in the 25 years since he left Port Worth, Texas. One meal a day is all he eats.

plial attendants and doctors who had drawn a lot of false conclusions to her memory and carry her back to happiness.

"Her Husband's Friend" is carried along with snappy action, clever touches of humor, and a delightful love interest that runs throughout. Tom Chatterton heads a capable supporting company.

Also, the Comedy "Don't Chase Your Wife," will be shown.

HOW COLLEGE SPORTS ARE DEGENERATING THESE DAYS

AMES, Ia., Sept. 21.—Horseshoe pitching along with snappy action, clever touches of humor, and a delightful love interest that runs throughout. Tom Chatterton heads a capable supporting company.

Regular courts have been established here and a welcome is extended by Charles W. Meyer, director of physical training, to all who "come out" for horseshoe. The director sees in the sport a new means of increasing athletic interest and development among the students.

SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness Is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable on Record

"Just a week before I started taking Tanlac I was down in bed so crippled up with rheumatism I could not move without help. My son had taken Tanlac and it had done him a world of good, so one day he brought home a bottle and said, 'Mother, I want you to take this.' When I had finished that bottle I felt like a different woman, and by the time I had finished my second bottle, I was out in the garden hoeing.

Tanlac has simply done wonders for me; it almost seems like a miracle. This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1409 Powers street, Portland, Oregon, and is only one of tens of thousands from well-known men and women who are daily testifying to the powers of Tanlac.

Continuing her wonderful statement, Mrs. Root said, "For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. In the last five years there was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I got very much worse and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I was so weak I could not do any household work. I couldn't even sleep, and had no rest day or night. Even to walk a few steps would tire me out completely. When I tried to walk I would stagger, and when I did walk a little way and sat down I could not get up without some one helping me. I had no appetite and hardly ate enough to keep me alive. I could not stoop over far enough to get my shoes on.

"I never knew what a night's sleep was, and would lie awake for hours. At times I would get very cold and would have to get up and sit by the fire all huddled up, and my daughters would put hot water bottles all around me. I was treated by four doctors, and took all kinds of medicine. Nothing ever did me any good. I am just like a different person now. All those terrible aches and pains have left me, and only the other day I was able to walk up four flights of stairs in an office building when the elevator was out of order.

"My appetite is just splendid now

and just today for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the money I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live."

Tanlac is sold in La Grande by Silverthorn's Family Drug Store and by all leading druggists.—Adv.

"My appetite is just splendid now

New York Schools Becoming Practical

NEW YORK, Sept. 21.—On the assumption that most girl pupils some day will marry and make their homes in small city apartments, public schools here are being equipped to teach them how to keep house economically and efficiently under those conditions.

Part of the equipment of the domestic science department of each of the new standard school buildings opened this year, is a model flat, filling the space of one ordinary school-room and including a kitchen, living room, dining room, hall, bedroom and bath.

Adjoining the model flat is a large cooking room and three small kitchens, separated by railings, the entire unit providing for the instruction of 40 pupils at once.

KLUM COACH IN ISLANDS.

HONOLULU, T. H., Sept. 21.—Otto Klum, new football coach at the University of Hawaii, arrived here recently from Oregon, where he formerly starred on the Oregon Agricultural College eleven. Klum's big task this season will be to whip together a team that will put up a strong battle against the University of Oregon eleven, which plays here Christmas Day.

Dream Lore.

To dream of nets indicates that your lover or partner in life is not so fondly attached to you as you wish. To dream you are entangled in one denotes a wary and powerful enemy who will endeavor to use you for a tool.
