TELOCASET HAS NEW GRANGE HALL

Water Has Been Piped Into the School House Making It Very Convenient.

TELOCASET, Oct. 7.—(Special.)—Mr. Smith of La Grande was in this vicinity on business for the Observer on October 4.

A dance was given at the home of Mr. and Mrs. Shafer on Saturday evening, October 2, and a large crowd was present and enjoyed the fine music. A nice lunch was served late in the evening. A fine time was enjoyed by all present.

Gladys Smaller entered the high school this week and took up her studies.

Marshall Huffman is on jury duty at La Grande. He is over his recent illness and able to be about again.

Mr. Snider is reported to be quite ill now.

One of the railroad hands was hurt the other day. His foot was caught under the truck which was being raised and mangled. He was taken to the hospital.

Miss Leach of Baker has been visiting with her sister, Mrs. Florence Stiles.

Mrs. Wilson was a visitor at the school a few days ago.

Water will soon be piped into the school house. This will relieve a long felt want and a great danger. Water is brought from across the railroad and carried by the pupils. Trains are passing all the time and there is the possibility of someone being hurt or killed. It will be better to have the expense of piping the water into the schoolhouse than to have one of the children crippled or killed.

Friends visited at the Hofffield home the first of the week.

The teachers of the schools will attend the teachers' institute in La Grande on October 10. School will be dismissed for this time and the little folks will have a holiday.

The teachers of the Telocaset schools have invited the parents for a teacher and parent's day. Parents are invited

The Unrevealed.

"Daughter," said the anxious mother, "you should know, absolutely, that you love James above all things save for me." "For mercy's sake, mamma," pouted the girl, "you are so unreasonably! How can I know how much I love him until I marry him and give him a chance to treat me mean and see if I can stick to him?"—Richmond Times-Dispatch.

to come and get acquainted and light refreshments will be served.

One of the Sunday school classes took their dinner and walked two miles to the woods. The weather was so warm that they were rather tired after their walk.

The Telocaset grange will soon move the building purchased by them to the site in town. When finished it will make a nice neat hall for them.

Business is very good in Telocaset. The railroad has a large force of men working here and farmers are hauling in their grain. The town presents a busy scene these days.

Original "Water Wagon."

It seems that the phrase "water wagon" started from the large-tanked wagons of the northwest, used in the harvesting season to supply water for the steam engine which runs the threshing machine. No one is more in need of water to drink than farmers of the wheat fields, working under the scorching sun. The workmen were prone to help up on the water wagon to quench their thirst every time the wagon came in. This was obtained from a keg of water fast submerged in the tank to keep it cool.

Nothing Hidden From X-Rays.

Few organs or parts of the human body are impossible to examination by X-rays. The most remarkable advance in this line was the discovery that insoluble opaque salts can be administered to patients in such quantity as to fill the gall bladder and intestines so that these hollow organs may be studied with the rays. This "opaque meal" shows their size, shape and position and also reveals their contractile movements.

A Midday Lunch.

A very fine hot midday lunch at 1:20 to 1:30 p. m. at the Palace. You will, without a doubt, notice the neat, tidy way these lunches are served and so quickly, too, that one in a hurry-up hour of the day need waste no time if they try out the Palace midday lunch.
