Society One of the coming week's most important social affairs will be the program arranged for the entertainment of the visiting teachers next Tuesday night. In an effort to get away from the stereotyped function of that sort, the Ad Club, Neighborhood and University Clubs have decided to present a playlet and that will be one of the feature attractions. There are two scenes in the act; it is a comedy and will be handled entirely by women. Mrs. Donald M. Pague is in charge of the playlet. This will be presented at the high school auditorium. The Neighborhood Club sextette will sing, as will also a male quartette, and these three numbers will constitute the program. Immediately after the forty-minute entertainment in the auditorium, those who care to dance will repair to the gymnasium, and those who do not will find other entertainment in the new domestic science rooms. A half dozen committees are working on the many details of the evening's affair, which the sponsors hope to make just as informal as possible.
