Babe Ruth, home-run champ, whose first home run in the world's series, came too late in the game and it too important a time to save the Yankees from a drubbing by the Giants yesterday.

## YANKEES ARE ONE AHEAD IN WORLD SERIES

(Continued from Page One.)

The sight of the "Bambino's" bulky figure drew forth a big shout of welcome from the crowd, which was repeated manifold when he made his circuit hit in the ninth. He handled his two fielding chances cleanly. There was nothing in his work at bat to indicate that his injured arm was handicapping him in the least. He did not, however, try to steal any more bases.

"I have realized one of my great ambitions—to make a home run in the world's series," Ruth said after the game, "but I'm sorry it did not come with men on the bases. It might have meant the winning of the game."

The real honors of the day, despite the spectacular work of Ruth in making his first world series home run—which by the way, was the first homer of the 1921 tilt—went to the lanky man who occupied the mound for the National league, "Shufflin'" Phil Douglas' exhibition was a work of baseball art that was a pretty thing to watch. He held the heavy hitting Yankees, with the exception of Ruth and Schang, almost in complete subjection when hits meant runs, and drew towards its close, only Ruth being able to reach him to any effect in the last three innings.

The Yankees' first run in the fifth, was scored when Wally Schang cut home with a fence breaker to left for three bases, scoring McNally, who had reached first on a fielders' choice. Schang was left when Mays' grounded out to Rawlings for the third out.

The break of the game came in the eighth. The lively Yankee infield had broken up an incipient Giant rally in the previous inning by a fast double play, but in their next turn at bat, Manager McGraw's men went at it again with a determination that wouldn't be broken down.

Muesel Starts It.

"Irish" Muesel started it by hitting the first ball pitched to far left center for three bases. This set the Giant rooters cheering and they went wild when Rawlings speedily stonied to center, scoring Muesel with the tying tally. Mays was in rather a mad way here, for a run was in, and a man was on first with none out. Matters became worse for him when he missed Snyder's bunt in a head-on dive for it, with the result that Snyder landed safe on first and Rawlings on second. They both moved up on Douglas' sacrifice which Mays threw to Ward, barely getting the batter.

Then up stepped George Burns, who previously had found the range with a single off Mays in the sixth.

Burns' aim was even better this time for he drove a slashing double to left, scoring Snyder and Rawlings and putting the Giants two runs to the good.

There was still one man out, but Mays put up more steam at this point causing Bancroft to fly to Ruth and Frisch to foul to Schang.

The Giants' final run, in the ninth, came when George Kelly broke the ice for his first hit of the series, a smart double to left, and scored on Emil Muesel's single.

The official figures gave the attendance at 36,372. The gate receipts were \$118,527, of which the share of the advisory board of baseball is \$17,779.05, the players share \$60,448.77, and two clubs shares, \$40,459.15.

In winning his game, Douglas pitched five more balls than Mays. He hurled 193 balls at the batters, of which 30 were called balls, 27 resulted in strikes, 14 foul strikes, 16 infeld outs, one outfield out and seven hits.

Mays pitched 98 times for 31 balls, 22 strikes, 11 foul strikes, 26 infeld outs, four outfield outs, nine hits and one base on error.

## MRS. WORK HAD NARROW ESCAPE

Portland Woman Convicted Tanlac Saved Her Life—Health is Perfect Now.

"I am convinced that Tanlac saved my life," said Mrs. Elizabeth Work, 372 Sixth St., Portland, Oregon. "Nobody knows how I suffered from stomach trouble for five years. I just went through such awful tortures that life was a burden to me! Every time I ventured to eat a good meal I suffered for hours afterwards from gas bloating me up and palpitation of the heart. I was so nervous I got little rest day or night and was miserable and discouraged as one could possibly be."

"I am more than delighted with what Tanlac did for me. I am just like a different person now—eating, sleeping and feeling better than in years. Tanlac has brought me the health and happiness and there is nothing that I can say about it that is half what it deserves."

Tanlac is sold in La Grande by Silvertorn's Family Drug Store and all leading druggists.—Adv.

## CARS WANTED WEDNESDAY

An insufficient number of cars has been listed for Wednesday afternoon when the teachers are to be taken for rides about the city, to the Country Club, the park and around by Island City and home. Approximately 80 cars will be needed and volunteers are asked to report at 2:30 promptly. Some cars had been called for 2:30 before the latest arrangements had been completed and their attention is called to the change in hours.

## DELIGHTFUL PLAY TOMORROW

Men of the Ad Club, members of the Neighborhood Club and their husbands, and University Club members are especially urged to attend the function to be given at the high school tomorrow evening for the visiting teachers. A delightful play of 40 minutes' duration will be given, to be followed by a reception in the domestic science rooms and a dance in the gymnasium being arranged to entertain both those who dance and those who do not. The play is presented by the Neighborhood Club and is a delightful comedy of two scenes. It begins promptly at 8 o'clock.

## HIGH SCHOOL EDUCATION IS LOWER HERE

(Continued from Page One.)

cuts in the La Grande high school. The money from their home districts is paid in this fall and used as part of the school revenues for this year.

The high school in Baker cost \$30,089.21 last year and its average per pupil was \$125.75. In Pendleton the cost of the high school was \$36,905 of an average of \$144.93 per pupil. In The Dalles the cost per pupil was \$130.50 but the figures received by Mr. Hampton from there did not contain the total cost. Mr. Hampton, as well as the board of education, is greatly gratified in the record made by the local school in keeping the administration expense lower than school operating under similar conditions.

The salary schedule for this year was made on the same basis as last year, but, owing to the fact that a number of the older teachers resigned, in some cases to take better positions elsewhere, this year's salaries will be actually less than those paid out last year. This is due to the fact that the younger and more inexperienced teachers do not receive as high salaries in the local schools as the older teachers who have been here a number of years. No salaries have been cut from last year's figure.

The same sized corps of teachers is now handling 200 more pupils than a year ago at a saving per year of \$1,212.90, according to Mr. Hampton's records. Last year the amount of salaries paid out in the high school was \$25,414.79 and this year it will be only \$25,199.28, a saving of \$215.51. In the grade schools the salaries paid out last year were \$63,954.74 and this year will be only \$62,957.35.

## PENNINGTONS GOING EAST

Mr. and Mrs. C. C. Pennington will leave this evening for Chicago, from where they will proceed to New York and Boston. After spending some time in the eastern cities they will journey to Florida and enjoy that climate and country for a few weeks, returning to New Orleans and then to Texas. From Texas they will go to Los Angeles and probably spend the remainder of the winter. It is a trip they have both contemplated taking for some time and their friends join in wishing them a most delightful time.

## MINING REVIVES

SACRAMENTO, Oct. 19.—A pronounced revival of activity in the gold mining fields of northern California and Nevada, where the 40ers once operated is being manifested, according to reports reaching this city, and most of it, it is believed, is due to the declining cost of materials used in gold mining operations. Reduced cost of labor also is a factor in the renewal of activity.

Within the last two weeks much work has been begun in the Mother lode district in Amador and Calaveras counties of California as well as in the Grass Valley district of this state. Nevada gold and silver mines both are showing signs of a renewed interest.
