A Woman Designed This

Liberty Peninsular High Oven Cast Range

It gives the housewife, who out of necessity has to use *coal* or *wood* to do her cooking and baking, all the comforts and ease that are enjoyed by her city cousin who uses gas.

Bake Without Backache

Look carefully over the illustration of this wonderful "Liberty" range—"Liberty" from stove blacking—"Liberty" from stooping—"Liberty" from backaches. Not a bit like any coal or wood range you ever saw, changed and reconstructed in every detail that the housewife considered advisable and necessary.

The first flame from the paper and kindling starts to heat the convenient elevated oven. The heat travels UP at all times according to the laws of nature, and thereby *saves fully one-third of your fuel bill.*

Above the regular oven is an auxiliary oven for additional capacity, and below is a large warming closet for keeping prepared dishes warm.

You will appreciate the double size ash pan that needs emptying only half as often. You will like the high legs that make it easy to sweep and clean under the range. You will like the sanitary white porcelain enamel that gives no chance for grease and dirt and rust.

Why not enjoy a "Liberty" range from now on.

THE OREGON HARDWARE & IMPLEMENT COMPANY

GETS BIG SWAG.

ST. LOUIS, Oct. 11.—Two men this morning held up Robert Hardaman, a negro messenger of the Grand Avenue bank, and escaped with a satchel containing $17,650 in cash and $91,000 in non-negotiable papers. The robbery was committed on a crowded street car near the heart of the city. The bandits compelled the conductor to stop his car and escaped in a waiting automobile.
