

Society

Last Friday afternoon a most interesting meeting of Chapter I, P. E. O., was held at the home of Mrs. L. B. Mos on Cedar street. There was a large amount of business taken care of and one of the many splendid features taken up was the appointment of a hospital committee to look after those who have no one to visit them and take them flowers, making their stay more pleasant while ill and away from home. It is felt that a better idea and acquaintance of this national holiday will be a great benefit not only to those who are ill and need hospital care, but to everyone. A splendid interest have already been shown since the first of our national hospital days held early this year, when all over the country people were asked to call and bring flowers, words of cheer and comfort to those there, and especially those without relatives and friends.

After the business was finished, Mrs. J. E. Wright gave a splendid party on Oriental rugs and showed colored plates of the many different kinds. The hostess served delicious refreshments. The next meeting will be at the home of Mrs. E. E. Kiddle, when Mrs. Kiddle and Mrs. Wayne Wade will be hostesses to a one o'clock luncheon to the chapter members.

All ladies wishing to attend the "mother and daughters" banquet on the evening of the nineteenth of October are requested to phone their names to Mrs. Lynn Bohnenkamp at as early a date as possible. It is intended that the girls of such an age as to be able to grasp the meaning of the event should be asked.

Mrs. L. A. Bohnenkamp will be hostess to the Presbyterian Missionary society Friday afternoon, October 14, at her home, 1704 First street. All members are urged to be present as this is the last meeting for the synodical.

About forty former students of O. A. C. met at the Foley hotel yesterday evening for dinner. The occasion of the reunion was the visit here of a large number of former students in connection with the tri-centennial teachers' institute, the local O. A. C. men and women acting as hosts.

Yesterday evening on the program for the teachers' institute was given over to social activities, a program being rendered in the high school auditorium, following which a dance was given in the gymnasium and a recep-

tion in the domestic science department. Many attended the exercises in the auditorium and both the dance and reception were well attended. Among the leading numbers on the program was a playlet presented by members of the Neighborhood club. The Ad Club and the University Club also assisted.

Mrs. Ed Hughes will entertain the ladies of the Paradise Club at her home Wednesday, October 13th.

The Parent-Teachers' Association of the Central School will meet Friday afternoon at 2:45 at the school.

All members of the L. A. B. of R. T. are asked to meet Thursday afternoon at Alstott's at 2015 Oak street, to work on a quilt.

Men Descended From Cats.
John M. Tyler, professor emeritus of biology of Amherst college, has been looking into our beginnings and he thinks that in appearance and structure the cats were much better justified than the apes in aspiring to bipedal preeminences, and that on form they should have won the future and made certain the ultimate building of all mammals of art and learning on the back fence.—St. Louis Post-Dispatch.

Poppies Kill Other Flowers.
Poppies have a very injurious effect upon other flowers placed in the same vase, which seems to react upon themselves, as they soon fade and die under such conditions. The same applies to sweet peas, which should always be placed by themselves.

NEW TODAY:

WANTED—To buy a fresh cow. Jersey preferred. Call Red 1281. 10-12-21

The Man Who Said:
"The proof of the pudding is in the eating"
was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts

KING KOAL

BUY IT NOW—WHEN COLD WEATHER COMES YOU MAY HAVE TO TAKE SOMETHING ELSE. A CHEAP PRICE DON'T NECESSARILY MEAN ECONOMY. WHAT YOU GET OUT OF IT IN USE IS WHAT DETERMINES AN ARTICLE'S REAL VALUE.

ASHES, SLATE, AND DIRT FOUND IN SOME COALS DON'T HELP TO KEEP YOUR HOUSE WARM. WHAT USE IS A SLIGHT REDUCTION IN BUYING PRICE IF YOU MORE THAN LOSE IT IN WASTE MATTER THAT WON'T BURN AND CLOGS YOUR HEATER?
