BOILED IN HOT LAKE WATERS

John W. Ellsworth recalls pioneer days of Union county in the following article in which he tells of how a British sailor was cured of broken bones in the waters of Hot Lake:

Many years ago, before the wonderful Hot Lake, near La Grande, was acquired by the Oregon-Washington Railroad Navigation company, now chiefly owned by Dr. W. T. Phy and improved into one of the most famous pleasure and health resorts in the United States, it was merely part of the ranch of S. F. Newhard, a worthy bachelor. Newhard's hired man, Friday, was a middle-aged ex-sailor James Harding, a perfect picture-book type of diminutive English Johnny Bull, red-blooded, half-moon whiskers and stubborn. This British Tommy Atkins had sailed 'round the wide world from Hong Kong, China, to Valparaiso, Chile. He was an able orator in sailor cuss words.

As frequently happens, this now peaceable strayed sailor may have been wronged by gossip, and even if he was so frankly profane as to be in danger of being hurled among the victims of Hades in "Paradise Lost." But he was loyal to the healing power of Hot Lake, whose boiling, steaming waters were known by the Indians for centuries before the white men came.

Tommy loudly asserted that "the 'ot water of this hodd lake will cure any 'uman ailment—absolutely."

Tommy proudly owned a near-by mountain ranch on Jimmy creek, named in his honor. Among his 50 horses was a young, handsome mare, wild fiery, unbroken. The sailor swore he would rig, ride and tame this equine. At the first attempt the mare boosted her human cargo aloft, stamped upon kicked and chewed the prostrate sailor. The maimed Tommy was hauled, half-dead, to his beloved Hot Lake. The medical men's statement that he had three cracked ribs and a broken arm and leg failed to discourage the Briton. Even hints of internal injuries only made him grittily warble a sailor song of the sea. After nightfall the doctors gave up hope and departed. When Newhard, his rancher employer, was asleep, the pronounced doomed-to-die sailor stealthily crawled to the shores of the lake. With hopeful appeals, he flopped into the steaming water and floundered around like a big skipper fish.

By chance and weakness he was drawn near where the boiling water, a hissing whirlpool of Hades, leaps upward from a depth of 15 feet. His howls, yowls, yells, whoops and strangling curses brought out the ranch owner on the run. The rancher heaved a rope to the flopping, screeching victim and towed the cooked-rare, rosy red sailor to solid land harbor.

Some reports assert that Tommy Atkins was cured of every ailment, including the swearing habit. Other stories are that when again on land the thankful sailor, kneeling, made devout devotions for deliverance from a "fricassee" death, like a boiled rooster in the scorching waters.

PUT HIM ON THE ROAD TO HEALTH

Portland Man Had Worst Kind of Indigestion But Eats Anything At Present.

"Tanlac got right in behind my troubles and now I feel just fine all the time," said S. M. Curns, 217 East Baldwin street, Portland, Oregon.

"For months before I took Tanlac I had the worst kind of trouble with my stomach. I don't believe anybody ever had indigestion any worse than I did. My back hurt me so too that it nearly killed me to bend over and straighten up again.

"Tanlac put me on the road to health almost in a jiffy. I eat three rousing meals a day now and never have an attack of indigestion. My back has quit bothering me and I am as well and strong as I ever was in my life. Tanlac is the medicine for me, first, last and all the time."

Tanlac is sold in La Grande by Silverthorn's Family Drug Store and all leading druggists.—Adv.

Sea Serpent Pure Myth.

There are no sea serpents and armor-plated monsters that rise from ocean's bottom and frighten vacationists. So says the prince of Monaco, one of the world's foremost oceanographers. Forget, also, the prince says, mental pictures of deep-sea forests of lace-like vegetation waving gently as submarine monsters move lazily through it. The depths of the sea are as barren as the tops of mountains. That is why there are no monsters in the depths of the sea; there is nothing there for them to feed on.
