Busy Pauline

Pauline Starke, a short while ago played little bit in photoplays. Now she is so in demand she employs a secretary to book her engagements. She just completed a featured role in "Mam'elle Jo" and is now leading lady for Thomas Meighan in "If You Believe It, It's So."

NEW AGENCY STARTED WORK

War Finance Corporation Unlimbers Itself and Goes at its Various Tasks.

With the War Finance corporation working it is believed the live stock men of the west will obtain some relief. F. L. Meyers of La Grande, who is keeping in close touch with the work, expresses the belief that a plan has been worked out which will be sufficiently flexible to get results and at the same time protect the government in its operation.

Under date of October 13th the following statement was issued from Washington, D. C., pertaining to the work:

"A number of important finance companies are being organized throughout the country to assist in the financing of the livestock industry, with the co-operation of the War Finance Corporation."

"During my recent trip to the west, I had the opportunity of meeting with representative bankers and livestock men in many states and it was clearly apparent that new finance companies are immediately needed in connection with the livestock industry. Utah has responded to the need by forming a company, with a subscribed capital of \$500,000, to make livestock loans in Utah and Idaho. Wyoming has also formed a loan company, with \$300,000 paid up capital, and is already doing business. The War Finance Corporation loan of \$215,000 announced this week was made through this company. Western Nebraska bankers have organized a \$200,000 live stock loan company."

"A telegram from Fort Worth, Tex., announces that, at a meeting yesterday of representative business men of the State of Texas, it was decided to organize a company with large capital to make live stock loans. Subscriptions amounting to \$750,000 were pledged at this meeting and it is hoped to receive total subscriptions of \$1,500,000. Other companies are in process of formation in other districts."

"Representative bankers from Oklahoma, who were in Washington yesterday in connection with the cotton business of the state, agreed to form a livestock loan company in Oklahoma. Through the organization of these

companies to supplement existing loan companies and banks, the War Finance Corporation may be able to make its funds available throughout the live stock sections of the country promptly on a large scale. It is immediately necessary to stop the marketing of immature livestock and to save the breeding herds.

The War Finance Corporation today announced that it has approved the following advances under Section 21 of the War Finance Corporation Act:

To a financial institution in Wyoming for loans on live stock \$215,000

To a bank in South Carolina for loans for agricultural purposes 100,000
