

Citizens of La Grande--- ATTENTION

THE TIME has arrived for Plain, Sincere talk--Man to Man--about the City's Water System. A special election will be held next Tuesday, November 1st to empower the City Commission to sell bonds to procure funds with which to repair the present water system.

If the Bonds fail to carry at the election on November 1st every home owner in La Grande faces not only a possible water shortage but also diminished and probably paralyzed fire protection. In fact, La Grande may at any moment be without city water.

The seriousness of this critical condition should be apparent to all.

W. D. GRANDY,
J. D. McKENNON,
DAVID I. STODDARD,

City Commissioners.
