O. A. C. May Play Penn. State Next December Sixth

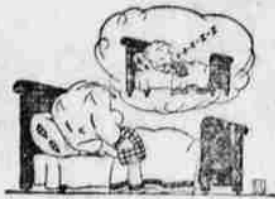

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 1.—It now looks as if Pennsylvania State will play the Oregon Aggies in Portland December 6, Jimmy Richardson, general manager of student affairs, at the college is still in touch with the eastern school, and if satisfactory arrangements can be made the contract will be signed soon.

Mr. Richardson telegraphed Coach Beadek asking for the game on December 19, with a guaranty of \$5,000. It will be impossible for Pennsylvania to play on that date and it has suggested December 6, under the same conditions.

TROOPS MAY STAY.

WASHINGTON, Nov. 1.—President Harding is understood to have indicated to Chairman Poyer of the house foreign relations committee, opposition to the passage of the resolution for immediate withdrawal of American troops from the Rhine.

It was time to wake up, all right

MY BRAIN was busy.
BUILDING AIR castles.
FOR I wasn't sleepy.
FINALLY I dozed off.
AND PROMPTLY dreamed.
THAT I was awake.
BUT WOKE right up.
AND FOUND I was asleep.
THEN I got thinking.
OF A wonderful formula.
FOR MAKING cigarettes.
I PLANNED it all out.
SO MUCH Turkish tobacco.
BLENDED JUST so with burley.
AND OTHER domestic leaf.
AND I knew that blend.
WOULD MAKE a hit.
I COULD just see.
CROWDS OF happy people.
THRONGING INTO stores
TO BUY that cigarette.
THEN LIGHTING up.
SMACKING THEIR lips.
AND SAYING, "Oh, boy.
IT'S THE exact copy
OF THAT "Satisfy" blend."
AND THEN I came to.
AND SAID to myself.
"THIS TIME you're dreaming.
FOR SURE.
WAKE UP, you darn fool.
WHY, THAT "Satisfy" blend,
SIMPLY CAN'T be copied."

THAT'S a fact—the "Satisfy" blend can't be copied. It's our own secret—putting these good tobaccos together in a way that gives you every last ounce of their fragrance. You'll smack your lips over Chesterfields. And remember—you can't get "Satisfy" anywhere else.

A Good Farm For Sale

150 acres in the heart of the valley known as the John Shaw farm one and a half miles East from the Iowa school house, about two miles West from Alfeel. Good, modern, up-to-date house, barns and out-buildings; all fenced and cross fenced; deep wells, with pumping plants; every foot under cultivation and first class sand ridge soil.

There is also a 44 acre tract about two miles south and east from this tract belonging to the same parties that can go with this place, at the same price, that also has good improvements, and the price is right—\$150 per acre—small cash payment will handle it. Come in and talk to us about it.

ON DRY

The best demand for finer grades of lumber all over the country is being met by the mills. In the new "Dutch oven" Oregon steam plant week. The space in the front of the boilers is about two feet and concrete floor laid on the brick of the ovens will be removed. The flues from the ovens has proved a slow job, but half of them have been removed and the remainder will follow shortly.

Efficiency Is Aim of Postmaster

In order to increase the efficiency of the mail delivery service, Postmaster General Hays has recently issued a statement requesting receptacles and house numbers to aid the carriers. The statement says:

If the expeditious and efficient delivery service of mail matter is to be accorded it is essential that all buildings to which mail is delivered be properly numbered and equipped with private mail receptacles. Without house numbers carriers are delayed in serving the routes and errors in delivery unavoidably occur, especially when substitutes are on duty. This condition coupled with the lack of mail receptacles, inevitably impairs efficiency and delays delivery, with a resultant public inconvenience and loss.

To correct this evil it has been decided to conduct a nation wide campaign with a view to having every building properly numbered and equipped with a suitable receptacle or opening in the door.

House numbers enable carriers to locate promptly buildings to which mail is addressed, and avoid errors and delays in delivery.

Mail receptacles insure the prompt and safe delivery of mail in the absence of the occupants, expedite the service generally, and permit more prompt deliveries.

The practice of placing mail in vestibules, under doors, or outside where it is exposed to the elements or theft is hazardous and frequently results in the loss of highly valuable or important mail.
