

WHEAT LOOKING GOOD IN PLACES

TELECAST, Nov. 5.—(Special.)—A Halloween party was given at the home of Mrs. Will Titus. A large bonfire was built and by the light and heat outdoor games were indulged in by the young people present. Ho, ho, ho, the young people were indulged in which each guest cooked for themselves. Many laughable accidents occurred to the cooking and the winners. Those present had a very fine time.

Mrs. Opal Meade has been suffering from a severe attack of tonsillitis, but is now able to be out again.

Chas. Hill was a business visitor in Union the other day.

Mr. Welman and son have been out on a hunting trip.

The man building the overhead crossing have quit hunting for a place to rest the support and will use cement as a base for the bridge.

Bert Daniels is herding sheep during the fine weather.

Mr. and Mrs. Hiatt were business visitors to the city recently.

The Haller boys are butchering some of their fat cattle and are selling them in town.

The fall wheat in some of the fields is a very poor stand. In some places the grain has a fine growth and other spots in the same field the grain has not come up and upon examination it has been found that the seed rotted in the ground. This is hard to account for. It is to be hoped that these conditions do not exist in many of the fields.

Some of the farmers who have tried out the Federation wheat report fine grain and a good yield. If reports are true this will be a fine spring wheat for dry land.

Some of the automobiles get stubborn and balk on these cold nights when the owners tarry late in the evening calling on friends. The balky auto is worse than a balky mule and lots of times lets the driver walk home while it remains obstinate.

D. C. Harris of Portland has just completed drilling a six-inch well 210 feet on his ranch near Crane for the purpose of irrigating by pumping. The water in the well is within seven feet of the top.

FLOWERS AT PORTLAND

La Grande flowers are to be exhibited in the Portland cactus show next week. The fame of pom poms grown by A. B. Cherry of this city has reached statewide proportions and a big collection will be shipped Tuesday of next week to the metropolis to be exhibited along with the famous Portland-grown flowers. Flower experts declare that Portland cactus growers will get a revelation in pom poms when the exhibition is put in place, for the selections are of unusual fine quality.
