

HUGE ROCKS IN BIG ERUPTION

Rocks as Large as Ships Thrown Out of Japanese Volcano Recently, Says American.

TOKIO, Nov. 14. (By Mail)—Showers of rocks larger than ships were hurled from a raging volcano on Kamchatka where a terrible and magnificent volcanic phenomenon occurred in August recalling the primitive days of the formation of the earth. After having been wrecked and washed away on the shore of Kamchatka Frederick McCormick, a well known American newspaper correspondent, witnessed the extraordinary eruption.

In a report to the Japan Advertiser, Mr. McCormick says: "On arriving at Hakodate, in northern Japan, I heard from a fisherman of an earthquake above Hakodate and the disappearance in the sea, September 5, of a part of the island of the Kurile group. The earthquake extended from Hakodate to the Aleutians and was but a prolongation of the seismic phenomena occurring in Kamchatka, where I was wrecked on the Kronotsky Peninsula. Ten days later 60 sea miles to the south, I found myself at Semlachik from where I saw the magnificent eruption of volcanic Karinskaya. Above a mountain ridge which lay between we could see without the aid of glasses the explosion of showers of rocks many of which must have been larger than ships, as they flew through the sky in giant parabolas. Only the fiery crest of the eruption was visible to us as it played against the sky. The smoke column, tilted southward by the wind, reached upwards thousands of feet and in two days the smoke cloud extended 100 miles down the coast and out to sea.

"Then the wind shifted to the west and the ship was sprinkled with volcanic dust. There was a great roar like the sound of an artillery battle, and it was reported that the water of Kronotsky Bay had risen in temperature 5-12 degrees while magnetic disturbances rendered the ship's compass unworkable. Fearing a submarine sea-wave we put out 45 miles off the shore and on September 5 recorded a violent earthquake which shook the ship. The same was experienced at the Comandorsky Islands and Ust Kamchatka.

"There are few places where the direct and positive force of nature can be realized so intensely as in this far away land. There are about 63 volcanoes in Kamchatka of which 29 are active; there is no historian to record their great doings except an astonished fisherman 1,000 or 2,000 miles away. A geographical expedition from Sweden intends to announce next year the results of its scientific work in Kamchatka."

Gibson G. Hickley, veteran of the World war, committed suicide near Cedar Mills Sunday by shooting himself through the heart. His wife had deserted him and he was despondent.

LIVED YEARS ON BREAD AND MILK

Malady of Alabama Woman Was Constantly Sapping Her Strength.

Mrs. H. P. Barrett, of Republic, a suburb of Birmingham, Ala., gives the facts of her remarkable experience with Tanlac as follows:

"During the past fourteen years I have spent more than one thousand dollars trying to get rid of a complaint that was gradually sapping my strength, but until I got hold of Tanlac nothing helped me. For the past four years I have lived almost entirely on milk and bread, and finally even that went against me.

"Before I had finished the first bottle of Tanlac I got so I could eat anything, and I certainly bless the day I first got this medicine for I believe it has added years to my life. The people in my neighborhood were as surprised at the change in me that fourteen of them by actual count are now taking Tanlac."

Tanlac is sold in La Grande by Silverthorn's Family Drug Store and all leading druggists.—adv.

BRIDGE SHOCKS TO BE MEASURED

WASHINGTON, Nov. 14.—A new instrument which it is believed will do away with uncertainty in designing and building bridges has been devised by the Bureau of Public Roads of the Department of Agriculture. The instrument measures with scientific precision every shock and blow delivered by moving vehicles in crossing a bridge.

The device, which can be attached to any part of the bridge structure, makes a photographic record of the effect of the moving load. The amount of stretching or shortening due to shock is represented by a fine black line on the photograph. No blow or shock can be delivered so quickly that the instrument will not record it.

As engineers heretofore have been unable to measure the effect of quickly delivered impacts or to proportion the various parts of a bridge with absolute assurance, it has been necessary to make a liberal allowance for this unknown quantity. In some cases the allowance has not been sufficient and bridges have collapsed under moving loads.

Recent experiments with motor trucks have shown, it is said at the bureau, that a swiftly moving truck may strike a blow equivalent to seven times its actual weight.

HORSES REPLACE AUTO IN ALICE

Alice Rural Route Carrier Makes Change to Assure "Getting There."

ALICE, Nov. 14. (Special.)—The Alice Ladies' Aid met at the home of Mrs. Frank Wright, November 10th for a hard time afternoon. Every person coming in a car was fined 1c at the door. Mrs. Thomas Wallinger drove two old farm horses to a real old time backboard. Mrs. Ray Fuller rode one of the horses and Mrs. W. J. Case and Mrs. John Smith sat in the back. The "Horn Dog" sat in the seat with the driver. The wearing apparel consisted mainly of "rags, tags and old paper bags" for Mrs.

Three Fingered Jack

There is none like him. He makes salvation as interesting as sin is to many.

It's the good old-fashioned kind of religion served up with lots of pep that you'll hear at the revival meetings to be held nightly at the M. E. church beginning Tonight.

Three Fingered Jack

Edgar Chensault had a complete paper outfit, even to hosiery. The refreshments were baked beans, potato salad, sandwiches and coffee.

Mrs. J. A. Howell won the first prize of a rag doll, her drawing card being wooden shoes. Mrs. Ray Fuller won second prize, and Mrs. James Moss third.

Mrs. Jesse Spencer and family and Mrs. Harry Place spent Tuesday at the home of Mrs. C. E. Van Heusen. Archie Keown, mail carrier, broke down several miles from the office Tuesday. It was after dark before he could phone for R. O. Watkins to come for him. Archie depends on the horses now.

Eula Watkins and Vera Shaw of Union spent the week-end with Miss Eula's parents, Mr. and Mrs. R. O. Watkins.

Claud Stewart has been quite sick for the past week.

"Uncle Ed" Murphy is able to be out again on nice days.

ROBBERY AT ENTERPRISE

ENTERPRISE, Nov. 14.—Robbers broke into the C. H. Zurecher & company store either late Thursday night or Friday morning. They entered the store by prying, cutting and breaking the glass in the rear door and their work was so rough and amateurish that it is believed they were boys who were making their beginning in crime.

The thieves took a valuable assortment of clothing, including five suits, two overcoats, shoes, hats, ties, a mackinaw, hand bags and suit case, worth all told about \$500. It is believed they drove to the store in an automobile which was left in the alley as they were committing the robbery, and in which they carried away their plunder.
