BUFFY LEWIS BEST HITTER

SAN FRANCISCO, Dec. 19.—"Buffy" Lewis, Salt Lake outfielder, and former world series batting star, with a percentage of .403, was the best hitter in the Pacific Coast Baseball League for 1921, according to official averages made public here today. Lewis cracked out 14 home runs, 6 three-baggers, 42 two-baggers and drove in 84 runs in making his average.

His nearest competitor was "Hack" Miller, Oakland outfielder with an average of .347. Miller played in 384 games, however, while Lewis participated in but 105 contests. Miller's hits scored 137 runners, more than any other player this season.

Jimmy O'Connell, San Francisco first baseman and outfielder, who was sold recently to the New York Giants for \$75,000, finished the season with a batting average of .337. He hit 17 home runs, nine three-baggers, 32 two-baggers and sent 101 runners across the plate.

"Faddy" Siglin, Salt Lake second baseman, finished in third position in the averages with .344, followed by Kenworthy of Seattle, .343, and Hale, Portland, and Knight, Oakland, .342 each.

SESSION OF LEGISLATURE HAS OPENED

(Continued from Page One.)

over three years, to aid in the financing of the proposed Atlantic-Pacific Highways and Electrical Exposition in Portland in 1925.

Gov. Olcott took advantage of the opportunity to present to the state at this time the question of additional legislation for the protection of state highways, and in his call for the session laid emphasis on the need for some enactment to regulate the weight and speed of motor trucks and regulate busses which are using the public highways.

While the legislature is in session corrections are expected to be made in several appropriation bills passed at the last regular session, but which on account of clerical errors in the enrollment of the bills were inoperative or impaired.

GOV.'S MESSAGE IS DELIVERED

(Continued from Page One.)

Not alone is this a matter of gravity as it affects our hard-surface highways, important as it may be in that connection. But throughout the state lighter types of surfaces, such as macadam and gravel, are being damaged almost irreparably by heavy motor trucks passing over them. Frequently these lighter surfaces are constructed by small road districts which expend the limit, or near the limit, of their taxing power to construct lateral and market roads and occasionally they see such roads wrecked by no more than one or two trucks. I may add that in my mind these lateral and market roads are of most vital importance—the very arteries that carry the life's blood of our state.

Protect Market Roads.
"Primarily the roads are made for handling the products of our people. Essentially and fundamentally these are the farmers' roads, over which they take their produce to the market centers. We never should lose sight of that fact. The roads are built for such men as the farmer, particularly the market roads, and his interests must be subserved. Any legislation enacted should take into full account this fact. I believe legislation may

WHEN YOU ARE CONSTIPATED.

To insure a healthy action of the bowels, and correct disorders of the liver, take two of Chamberlain's Tablets immediately after supper. They will not only cause a gentle movement of the bowels, without unpleasant effects, but banish that dull, stupid feeling that often accompanies constipation.—Adv.

We are making up an imported 17 ounce blue serge for \$22.50.

VENISON FEED.

On Wednesday evening, December 28, the Wing, Fin and Fleetfoot club will hold its annual venison feed at the Fulex hotel. Membership cards for the year 1922 can now be secured from the secretary of the club. All old members are urged to immediately renew their membership. The membership fee is unchanged, \$1 a year including the annual fish and venison feeds.
