

For Fretful Babies

Remedies for the little folks should be selected with care. Such preparations should be simple and free from opiates such as the old fashioned soothing mixtures contained.

Meritol Soothing Syrup is pleasant to take. It sweetens the stomach, regulates the bowels and thus overcomes peevish, fretful conditions.

THRIFT SHOP OF RED CROSS IS A SUCCESS

The Red-Cross Thrift Shop has been in operation for a month and during that time has proven its success. It has received the co-operation of a great majority of the social and fraternal organizations of the city.

Among those who have donated are: J. C. Penney Co., N. K. West, Hill's Department Store, Siegrist Jewelry Co., Hooverized Grocery Store, Standard Laundry, Modern Laundry, W. W. Berry, Sherry Shoe Shining Parlors, McCall's Cleaning and Tailoring, Zweifl Tailoring. Comforters have been sent in by the L. D. S. Aid Societies of Cove, Union, Mt. Glenn, the North Side Aid and Red Cross Society of Old Town.

During the week before Christmas the following societies conducted Red Cross Candy Sales: The Young Woman's Educational Society of the Methodist Church, \$23; The Westminster Guild, \$46; The Sunday School Classes of the Christian Church, \$4.40; The L. D. S. Society, \$53. The Eastern Star has donated \$25 and the Ladies Auxiliary of the Co-operative League, \$10. The Neighborhood Club is donating fruit and vegetables.

PRODUCTION OF MINE IS HEAVY

BAKER, Jan. 12.—Dr. Charles E. Sowder is a business visitor in the city today from the E. & E. mine at Bourne, and will return to the mine in the morning.

He stated that the daily production of the mill at the mine has now been increased to 140 tons a day. This is an increase from a daily tonnage of 65 tons less than a year ago. This is the result of recent improvements being made in the mill, which when completed will increase the daily tonnage of the mill to more than 200 tons.

The E. & E. is now milling a larger tonnage than any other precious metal mine in the Northwest. The ore is treated by the flotation process, and the company ship a carload of the product to the smelter at Tacoma every four days.

Baker Man Sells Wool For 24 Cents a Pound

BAKER, Jan. 12.—The sale of 99,000 pounds of wool was made this week by C. P. Ragsdale. The wool was sold at 24 cents a pound, one of the best sales reported in a year.

Mr. Ragsdale stated that a few days before he sold he received an offer which if he had accepted he would have received \$1500 less than he did.

Mr. Ragsdale recently consigned a shipment of wool to Boston, but the present market at Portland is so much better than the eastern market he is tempted to reship the wool to the coast.

Home Brew Narcotics Are Latest Menace

(By Associated Press) CHICAGO, Jan. 12.—In addition to the troubles brought on them by manufacturers of "moonshine" whisky, federal agents now have "home brew" narcotics added to their list of daily worries, it developed Tuesday.

When the case of D. H. Leiss of Seneca Falls, N. Y., was called before Federal Judge George A. Carpenter, Leiss pleaded guilty of violating the Harrison drug act and explained that 2500 grains of morphine found in his possession was home made. He was sentenced to six months in jail.

After the federal grand jury indicted Herman Root, a farmer of Lisle, Ill., for alleged violation of the Harrison act and officials said that analysis of drugs found in his possession showed they had been made from herbs grown in the vicinity of his farm.

SHANTUNG TALKS RESUMED

WASHINGTON, Jan. 12.—The Chinese and Japanese are resuming the Shantung conversations and have agreed on the question of construction of building extensions of the Tsingtao-Finanfu railway in the Kiao Chow leasehold. Balfour and Hughes had submitted a series of proposals for the settlement of the railway dispute.

DOG TAX LAW HELD VALID

Supreme Court Decides State has Right to Tax Dogs; Fight to be Carried to Legislature.

SALEM, Jan. 12.—The constitutionality of the dog tax law, enacted by the state legislature in 1919, is upheld in an opinion written by Justice Rand and handed down by the supreme court Tuesday, affirming the decree of Judge Bingham of the Marion county circuit court in the case of E. Hofer vs. John Carson, district attorney, and other officials of Marion county.

Hofer, as the owner of a dog, sought to enjoin officials of Marion county from collecting the license fee fixed by the state law at \$1 annually for male dogs or spayed bitches, and \$2 annually for female dogs. Hofer in his complaint asserted that his dog was already regularly assessed and taxed as personal property, that he had paid this tax and that, under the act of 1919, under attack, he would be compelled to pay an additional sum as license fee, which is really not a license fee, but a tax levied wholly for the purpose of raising a revenue to create and maintain a "dog fund."

In upholding the validity of the act, Justice Rand points out that "the keeping of dogs is under the absolute control of the legislature and that right may be conditioned upon the payment of a license," and that the license is imposed by the state law, and created "as an exercise of the police power" of the legislature, "as distinguished from the taxing power."

Colonel Hofer, Salem business man, who has been conducting the fight against the dog tax law, declared this morning that he was not yet through his fight, intimating that he would carry his case to the next legislature for a repeal of the act of 1919.

Boy Scout Night At M. E. Church Will Be On Next Sunday

Sunday evening will be Boy Scout night at the Methodist church. The Scouts will attend the service in a body and will contribute a talk by one of their members and a rousing song as well. Short talks will be made by Scout Commissioner Fryke, Scoutmasters Hogan and Carter and the pastor. Special musical selections will be furnished by the male choir and male quartet.

GIRL DEPUTY.

(By Associated Press) BOISE, Ida., Jan. 12.—Miss Bonnie Hartman, daughter of P. O. Hartman, who was a deputy sheriff here a number of years, has been appointed the first woman deputy sheriff for active service in Twin Falls county. She is a graduate of Twin Falls high school.

NEW ARMORY ADDITION.

(By Associated Press) SPOKANE, Wash., Jan. 12.—Hospital facilities for 35 patients, a dental office, operating room and medical office, will be features of the new Spokane armory addition. Separate hospital quarters will be provided for officers.

CATHEDRAL DESTROYED.

(By Associated Press) MESSINA, Sicily, Jan. 11.—A tremendous landslide Monday destroyed the cathedral, the postoffice and many dwellings in the town of San Fratello. The entire population fled to the country. The slides, which are continuing, are due to recent heavy rainfalls.

GRANGE HOLDS INSTALLATION

At the last session of Blue Mountain Grange No. 345, the following officers were installed: W. O. Sherwood, master; W. E. Gekeler, overseer; Mabel Anson, secretary; J. A. Hamann, steward; Luciah Redhead, chaplain; Joseph Anson, assistant steward; Auna Holman, treasurer; Mattie Golden, secretary; G. V. Wilkinson, G. K.; Ethel Sherwood, Care; Mary Taylor, Pomona; Anna Huffman, Flora; Della Taylor, L. A. S.

AMERICA IS GIVEN ORDER

(By Associated Press) TORONTO, Jan. 12.—In recognition of aid given Japanese students of engineering, Dr. J. A. L. Waddell, one of America's foremost engineering authorities has been decorated with the second class order of merit of the Sacred Treasure. This is Dr. Waddell's second Japanese decoration, the first being the fourth class order of the Rising Sun conferred upon him by the emperor Meiji in 1888. Dr. Waddell was instructor of the Imperial university of Tokio about 40 years ago and rendered valuable service to Japan in connection with foundation of the engineering department of the university.

Indictment Against Betty Inch Dismissed

(By Associated Press) NEW YORK, Jan. 12.—It will not be necessary to build any more fences around the witness chair in the criminal branch of the supreme court to save jurors from the distraction of Betty Inch's silk-clad ankles.

An indictment charging Miss Inch with attempting to extort money from Eugene P. Hermann, wealthy contractor, was dismissed by Justice Wasservogel Tuesday on recommendation of Assistant District Attorney Brothers, who said there appeared to be "reasonable doubt" as to her guilt.

Two juries disagreed on the case, although the second was enabled to concentrate on the evidence by a fence built about the witness chair by direction of the district attorney's office before Miss Inch took the stand.

Science Takes Hand In Poker In New York

(By Associated Press) NEW YORK, Jan. 12.—Science has taken a hand in poker. The complex that causes people to sit up all night with cards and chips is under examination at Columbia university, where the department of psychology recently called for volunteers to sit in on a little game that was observed and studied by the instructors.

It was easy to get volunteers even though the call went out for "first class poker players" only. Apparently the professors didn't know how easy it would be, for they paid the volunteers.

Poker faces, reactions of the fellow who drew to a pair and filled, and other psychological information will be included in a publication on practical psychology.

ANOTHER GAS TAX

(By Associated Press) WASHINGTON, Jan. 12.—A tax of 3 cents a gallon on gasoline, to be paid by the producer, the proceeds of which would be used for a soldier bonus, is proposed in a bill introduced Tuesday by Representative Bacharach, republican, of New Jersey. The tax, he estimated, would yield from \$24,000,000 to \$25,000,000 annually — sufficient revenue, he said, to meet cash payments to former service men, provided for in the bill.

CATTLE RUSTLER HANGED

(By Associated Press) MILES CITY, Mont., Jan. 12.—Discovered in the act of cutting out a calf from a herd of cattle near Mandlin recently, Bud and Sol Nichols, brothers, wrote "Flora" to the career of the old gray wolf which has terrorized the north-side country for several years past. The two range riders are reported to have succeeded, after chasing the animal for 26 miles, in roping him, a feat which is almost unique in the history of wolf killing in the northwest.

NOVELTY COLOR ORGAN IS USED

(By Associated Press) NEW YORK, Jan. 12.—Novelty seekers who went to the neighborhood playhouse Tuesday night, got what they paid for—the distinction of attending what was said to be the first public rendition of aesthetic compositions for the "mobile color organ."

Four numbers were presented by the inventor of the unusual instrument, Thomas Wilfred, made up of what the program described as "moving color and form in rhythm to the vision, just as music is played for the hearing."

With the house in darkness, images were thrown on a screen from the rear. In ever-changing colors and combinations, they drifted across the screen, some times mere smudges of light, again like the penetrating beams of a searchlight.

GUILLOTINE IS PUBLICLY USED

(By Associated Press) PAPEETE, Tahiti, Jan. 12.—For the first time in nearly 50 years the guillotine was used in the public square of the French colony here today.

Generally, the penalty in murder cases is transportation to a penal colony at New Caledonia, but in this case, in which a Chinese resident was convicted for murder, the old penalty was inflicted.

The guillotine, however, was an up-to-date model, for instead of using an axe-man, a button released the knife.
