## GOLF LINKS IN PARIS' HEART

(By Associated Press) PARIS, Jan. 17.—Parisian golfers, unable, because of business, to go to their country clubs, have brought a golf links right into the heart of Paris. An indoor golf club, unique in Europe, has just been opened on the Champs-Elysees, with putting greens transplanted from Dieppe.

The greens are laid in the middle of a long hall and tables are set around them so that members can dine while others play or have dinner after a game. The lofty tunnel or hall where the game is played, is illuminated at night and makes possible practice shots of yards.

When the ball hits the side curtains, it is returned to the green on an inclined plane. There are many ingenious bunkers of various shapes made of real turf. Practice in approach shots is afforded in many ways.

Membership in the new club is restricted to the members of the leading Paris clubs and 250 persons already have applied for membership. Indoor golf now is expected to become a popular sport among wealthy Parisians.

## CORNUCOPIA MAN INVENTOR

BAKER, Jan. 17.—William Colo, who is in Baker from the Gold Reef mine at Cornucopia, is making application for a patent on an attachment to be used on mine hoists for clearing mud from tunnels and incline shafts.

Mr. Colo has been using his first model of the attachment in operation at the mine for more than a year. It has been tried out under all conditions and fully determined that the idea is practical. R. M. Betts has also been using one of the attachments in connection with a hoist in drawing bars from a long crosscut tunnel at the Baker mines at Cornucopia.

## EXCITEMENT IS DEATH CAUSE

PENDLETON, Jan. 17.—Excitement caused by a fire at the home of a neighbor proved fatal yesterday to David H. Coffman, aged 70, who dropped dead after running from the Owen farm, where he made his home, to the S. G. Shaw farm across the road. The two ranches are located three miles northwest of Pendleton. Mr. Coffman, who was in excellent health, saw the Shaw farm in flames and went to notify his neighbors of the disaster. He died upon reaching the Shaw ranch, his death being due, doctors say, to heart disease.

## ADVANCES TO FARMERS LARGE

PORTLAND, Jan. 17.—Accounts and advances to January 4, of the Oregon Cooperative Grain Growers' association amounted to \$2,337,000. The organization fund of the association at that time showed a balance of \$540. During the last few weeks members in increasing numbers have been visiting Portland headquarters and the satisfaction expressed with the operation of the marketing body has encouraged the office to greater efforts.

C. A. Barnes, assistant organization manager, has completed his work in Sherman and Gilliam counties, reporting an enthusiastic welcome and satisfactory comment upon the operation of the marketing body he mentioned wherever they have been visited. Plans for future organization work will soon be announced.

WASHINGTON, Jan. 17.—The American government has notified Cuba that she has requested a loan of five million dollars in the United States, but that the higher loss of fifty million dollars will cover up the ability of the island authorities to produce further the Cuban debt.

(By Associated Press) PORTLAND, Jan. 17.—Cattle were 25 cents lower today. Choice steers were \$7 to \$7.50. Hogs were weak and sheep steady. Eggs were firm with a higher tendency and butter was steady.

(By Associated Press) PORTLAND, Jan. 17.—Wheat was 1.01 to 2.10 today.

## SCHOLARSHIPS ARE NUMEROUS

CHICAGO, Jan. 17.—War scholarships amounting to \$300,000 have been invested in 2,798 young Methodist ex-service men through the Board of Home Missions and Church Extension of the Methodist Episcopal Church according to an announcement made by Dr. David D. Forsyth, Corresponding Secretary, Philadelphia. The ex-service men are in 200 schools, colleges and theological seminaries, and have received and are receiving from \$50 to \$250 a year as a gift of the church from the Centenary fund to enable them to finish the course of study begun when they left the college to enter the war. It is estimated that 23,368 young men left the Methodist secondary schools, universities and colleges and professional schools at the call of their country.

## AD CLUB AT HIGH SCHOOL

More than 60 members of the Ad club were entertained and amply fed today noon when the Domestic Science department of the high school served a cafeteria luncheon in connection with an Ad club inspection of the manual training and domestic science departments. Robert Eskin, chairman, had a snappy program ready the minute the men folks were seated and the noon hour was topped off with a once-over in the boys' department, where classes gave interesting demonstrations.

Among the important business matters coming up was the club's election to designate a committee of two to work in conjunction with the American Legion to catalogue land in Union county that might be applied under the new scheme of allowing service men to hew out a home on a practical basis. President Mossman will name the committee at an early date. Dr. R. P. Murphy, commander of the local post explained the state-wide plans, and also boosted for the war picture now showing in La Grande. Dr. Jule supplemented this phase of the talk. J. G. Snodgrass, head of the tourist committee, advocated the placing of signs at the drinking springs along the main highways, so that home folks and visitors alike would know where such springs are when hunting for Sunday rest spots or for drinking water.

Mr. Turnbull of the Alexander Hamilton Institute, read a letter from his New York office, that was distinctly optimistic in tone expressing the belief 1922 would be a better business year.

Prof. E. D. Towler, principal of the high school, was the main speaker explaining the different departments of the high school, giving interesting figures to show that La Grande is the largest high school in the state east of the Cascades, and that the cost is the lowest per pupil. His talk was well received.

City Manager, Kratz was introduced to the club and spoke briefly. Wood Berry announced that the golf practice course in the Elks' building is now ready for use and all Elks who play golf are welcome to its service.

Dr. W. T. Phyl of Hot Lake will be the chairman next Tuesday.

A standing vote of appreciation to the teachers and pupils who had served the luncheon was taken after brief remarks on the subject by President Mossman.

## Woman's Life Term Upheld by Court

(By Associated Press) SAN FRANCISCO, Jan. 17.—The state supreme court denied Monday a writ of habeas corpus for Mrs. Louise L. Peete, formerly of Denver, serving a life sentence in San Quentin prison for the murder of Jacob Denton at Los Angeles, asked by her attorneys on the ground that the law permitting the use of a thirteenth juror was discriminatory, since not required in all cases.

Having lost his right hand in the war, a London organist "carries on" excellently with the left only.
