

# MARKETS BY RADIO LATEST

WASHINGTON, Jan. 18. — The wireless is now being used by State and Federal agencies to broadcast national and local agricultural market reports throughout virtually the entire country. Reports on the national markets are dispatched daily by the United States Department of Agriculture from wireless stations at Cincinnati, Omaha, Washington, North Platte, Nebr., Rock Springs, Wyo., Elko, Nev., and Reno, Nev. These reports are received by hundreds of amateur wireless operators. National market reports are also received by state bureaus of markets and agricultural colleges, supplemented with local market reports, and relayed by wireless telegraphy and telephone to farmers, shipping associations, newspapers, banks, and other agricultural interests.

The St. Louis University at St. Louis, Mo., was perhaps the first among educational institutions to broadcast market reports by wireless. These reports are received by hundreds of farmers, shipping associations, banks and other agricultural interests, and telephone company in eastern Illinois which receives the reports telephonically the news regularly to its 5,000 subscribers.

At Lincoln, Neb., the University of Nebraska and the Nebraska Wesleyan University are cooperating in broadcasting crop and market reports furnished by the State bureau of markets. Both radio telegraph and radio telephone are used. At Wisconsin in the State department of markets broadcasts national and local market reports from the University of Wisconsin wireless station at Madison, at Minneapolis, crop and market reports are broadcast from the University of Minnesota radio station. The Minnesota College of Agriculture has also assigned an extension representative to instruct the farmers in the use of wireless receiving apparatus. The College of Agricultural of Cornell University has assigned an expert for similar work, and to assist rural radio clubs that are being organized in New York.

A high-powered transmitting wireless telephone is being installed in the office of the Missouri State market bureau at Jefferson City, Mo., and will be ready for disseminating market information about January 10. Government reports from the larger market centers of the country will be received by means of a "drop" from the leased wire system of the United States Department of Agriculture, and transmitted by radiophone to all sections of Missouri. Demonstration intended to interest farmers, dealers, and shippers in installing the necessary wireless receiving apparatus will be held in various rural communities of the State, and it is anticipated that telephone offices, newspapers, chambers of commerce, county agricultural agents, banks, high schools, and cooperative marketing associations will be among the first to install receiving sets.

A most complete program in the dissemination of market reports by wireless is being planned by the State bureau of markets in Ohio, a specially constructed radiophone transmitter of the most improved type being installed in the radio station of the University of Ohio for that purpose. The Texas markets and warehouse departments are also planning a market news service

by radiophone for farmers, dealers, and shippers in Texas, arrangements being made to use the radio equipment of the University of Texas at Austin. The first national market report to be broadcast by wireless anywhere in the world was sent out by the United States Department of Agriculture from the radio station of the United States Bureau of Standards only a little over a year ago. The department soon demonstrated the practicability of utilizing the radio for disseminating market information, and rapid progress in expanding the work has been made possible through the cooperation of the State and Federal agencies. To make the American farmer the best informed farmer in the world is the aim of these agencies, and equal progress during the coming year will go toward securing, say officials of the Federal department.

## BOYS GAMBLE IN EXCHANGE

(By Associated Press)  
PARIS, Jan. 18. — Even the schoolboys of Paris now speculate in money of foreign countries. The fever which has prompted French people of all classes to invest their francs in German marks, recently led a 12-year-old boy to one of the large Paris banks, where he asked for "a franc's worth of German money."

The clerk was amazed at the youthful request and stuck his head out of the cage so that he might better see the boy whose head scarcely reached the window ledge. The child continued, as though seeking advice: "Perhaps it would be better if I bought Hungarian money. I read in the paper this morning that marks had gone up but Hungarian money hadn't, but Hungary has lots of corn and I think her money will go up soon, don't you?"

## AIRPLANE SLAYS WOMAN.

(By Associated Press)  
RED BANK, N. J., Jan. 18. — A runway airplane, starting from the ice, crashed into a crowd of several hundred skaters on the Shrewsbury river Sunday, killed Mrs. Anna C. Mounihan, severed the right arm of her brother, Lawrence Conley, and slightly injured many others.

The airplane, piloted by James Casey, former army aviator, maneuvered over the heads of the skaters for several hours, then descended. The skaters gathered around the machine, and river men, fearing that the ice would give way, suggested that Casey leave.

# THIN, FRAIL PEOPLE SHOULD TAKE TANLAC

Hundreds of Men and Women in La Grande Appear to Be Physical Wrecks Simply Because Their Systems Are Starving for Nourishment.

There are hundreds of thin, run-down, nervous men and women right here in La Grande who should be strong, sturdy and vigorous, with rich, red blood tingling through their veins and feeling brimful of life and energy, if they would only profit by the experience of others all over the United States and Canada, and assist nature to digest the food they eat, by simply taking Tanlac.

Millions of people have not only been relieved of the most obstinate forms of dyspepsia and indigestion by Tanlac after other remedies have failed, but numbers of them have reported a remarkable and rapid increase in weight and a return to normal health and strength by its use.

In fact, so phenomenal have been the gains in weight by thin, frail people through the use of Tanlac that this remarkable preparation is now being purchased everywhere as the World's Greatest Tonic.

The food people eat does them absolutely no good unless they digest it properly. When you suffer from indigestion and other forms of stomach trouble, the food does you harm instead of good, because food which is not digested stays in the stomach and ferments, causing pains, swelling, gas on stomach, shortness of breath, bad taste in the mouth, dizziness and many other disagreeable symptoms. It is this condition is permitted to run on for an indefinite period the entire system becomes saturated with poisons, the patient becomes thin and pale and in time various complications are apt to result.

Tanlac is a powerful reconstructive tonic and quickly overcomes this condition by aiding Nature to eliminate the impurities from the system in a natural way and enable the vital organs to properly perform their functions. That is why

It is called Nature's Medicine.  
In fact, there is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilative organs, thereby enriching the blood and invigorating the entire system. Next, it enables the weak, worn-out stomach to thoroughly digest its food and convert the nourishing elements into bone, blood and muscle. The result is you feel strong, sturdy and well with the proper amount of flesh, as Nature intended.

Tanlac is sold in La Grande by Silverthorn's Family Drug Store and all leading druggists.—Advs.

**FLAVORS LOST**  
(By Associated Press)  
MIAMI, Fla., Jan. 18.—Apprehension for the safety of the three

passengers who left Friday on the flying boat New York for Bimini increased Sunday night when a rising wind rendered less probable the location of the New York II, as had been suggested, she was floating disabled in the gulf. Subchasers and airplanes were out all day Sunday in an effort to locate the craft.

## WANT MORE DRYNESS.

(By Associated Press)  
CHICAGO, Jan. 18.—The Women's Christian Temperance Union Monday, the second anniversary of prohibition, will launch a "star in the window" campaign. Star flags, similar to the service flags of the war, will be put a pin every home where no liquor is consumed, if the campaign is successful.

## Stiff? Sore?

A lame back, a sore muscle or a stiff joint often is considered too lightly by the sufferer. It should be remembered that backache, rheumatic pains, stiffness, soreness, a swollen and puffed-up face, under the eyes are symptoms of kidney and bladder trouble—and these certainly should not be neglected.

### Foley Kidney Pills

help the kidneys eliminate from the system the poisonous waste and acids that cause these aches and pains. They act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to healthy, normal condition.

J. E. Sullivan, 305 E. 5th St., Portland, Ore., writes: "I was troubled with backache and urinary trouble. I used Foley Kidney Pills and will say that I highly recommend them to anyone troubled in that way, as they are excellent."
