

PIONEER OF LOSTINE PASSES

(Special to The Observer)
LOSTINE, Jan. 20.—Simon L. McKenzie died at the Wallowa hospital Tuesday, January 17, at 10 o'clock a. m., and was buried in the Lostine cemetery on Thursday afternoon, the funeral service being held at the Presbyterian church in Lostine at 2:30 p. m. The deceased had been in poor health for several years and his condition had been serious for several months. He was taken from his home in Lostine to the Wallowa hospital several weeks ago in hopes of improvement under the doctor's close attendance but grew gradually weaker, although there were days that he seemed much improved. Some of the family have been near him at all times and Mrs. McKenzie and the oldest son, Kenneth, a druggist at Wallowa were with him during his last moments. He has been a resident of Lostine for about eighteen years, coming here from Summerville, where he had been in the drug store business for years and later was postmaster for several years before his health gave way so he had to retire from active business.

The date for the first scholastic contest between Lostine high school and Wallowa high school has been changed from January 16 to January 30. The subject will be "Resolved, That the Philippines be granted immediate independence." The negative side will be taken by Harley Allen and Wayne Crow and the affirmative by Floyd Moffitt and Maxine Powers.

He laid his hand on a log and cut it off at the first joint himself but later had to go to Doctor Gregory of Wallowa and have it amputated again.

Little Miss Mabel Hook, youngest child of William Hook, fell against a hot stove Saturday and burned one side of her face badly. It is healing as rapidly as possible and it is thought that no serious damage will result.

(By Associated Press)
LONDON, Jan. 20.—The clay tobacco pipe, familiar to many generations in England. The wooden pipe and greatly increased

cost of clay are said to have killed the industry.

Preparations have been made for the closing down at Bristol, after an existence of 200 years, of a firm engaged in the making of those pipes, believed to be the oldest house in this country, if not in the world. Many years ago there were 14 manufacturers of clay pipes in one parish of Bristol. One by one they have dropped out.
