## "Without a Smiling Face Do Not Become a Merchant"

is an old Chinese proverb. For picturesqueness, shrewd common sense and penetrating vision, the Chinese excel.

A smile, a kind word, a sympathetic helping hand, costs nothing; they unlock the gates of untold happiness and success.

Without these human qualifications, man, indeed, should not become a merchant.

Service as expressed by salespeople who smile, who are courteous, attentive, efficient, who render helpful assistance to their customers, is an oft-mentioned characteristic of this J. C. Penney Co. store.

We strive to be worthy merchants. And we shall endeavor to deserve your patronage.

Unfavorable Weather In Western Part  
(Continued from Page One.)

Conditions unfavorable for farming in California, but no serious crop prospects. The time the season is about

half over. Milk production is considerably below normal in Wisconsin, because of short feeding and of the reduced number of animals.

Some hay shortage is reported in Michigan, Wisconsin, North Dakota, and South Dakota. An abundant supply of hay is reported in Kansas. The ice covering has been unfavorable to meadows and grass in New England. Clover and alfalfa fields have been damaged by severe weather in southern Wisconsin and Indiana. Ranges are very dry in New Mexico, but have been improved by recent rains in Arizona.

The supply of farm labor is generally sufficient and in many sections is in excess of the demand. There is very little demand at present and where possible farmers are

doing their own work. Plenty of farm labor is reported in New Mexico at a wage of \$1.50 per day without board.

## CLEARING OF DRIFTS HAS BEGUN

(Continued from Page One.)

er places in the western part of the state where ice and snow that blocked the highway several months ago has halted traffic since and is only now being cleared off in places.

It is expected that two weeks will be required to complete the work of clearing all the drifts off the highway.

## MOONSHINE IN AUTO RADIATOR

YALE, Feb. 8.—Most every one drinks it when they can get it. It is said some use it as hair oil. And numerous other ways are accounted for the possession of the nefarious stuff. But moonshine has found a new use in Yale. One citizen of this burg has three gallons of the fiery stuff in the radiator of the car and he says it is a remarkable non-freezing radiator filling. You can easily see why it is impossible to disclose the identity of

this car. But the fact remains that one automobile in the city contains moonshine in its radiator.

Don't bump your noses, boys, trying to locate the car.

## Market News

(By Associated Press)  
PORTLAND, Feb. 8.—Livestock was steady today, eggs were 2 cents lower. The buying price was 22 to 25 cents. Butter was firm. An advance being likely. Wheat possible to disclose the identity of was \$1.12 to \$1.10.
