Local Boy Named On Committee At the U. of O.

UNIVERSITY OF OREGON, Eugene, Mar. 7.—Reorganization of the Oregon Knights' freshman vigilance committee was effected Thursday night, according to James Meek, Portland, president. Douglass Farrell, Portland, was appointed chairman of the visiting teams committee. A committee to take care of getting machines to care for visiting teams is headed by Ken Williamson, La Grande. Ray Harlan, Klamath Falls, is chair-

man of the vigilance committee. Score boards will be arranged by Henry Karpenstein, Eugene; Ted Baker, Alamo, is in charge of the dance committee.

PLEW 250,000 MILES

CROYDEN, Eng., Mar. 7.—Fred Olley, pilot of the Croyden air station, has completed 2000 hours of actual flying, during which he has covered 250,000 miles. In six months he has crossed the Channel 150 times.

POULTRY MEN BROADEN SCOPE

Association Organized Here Last Year to Form Branches In Other Counties At Early Date.

At a meeting of the Eastern Oregon Poultry association held here Saturday it was decided to broaden the scope of the organization, which has been functioning in the Grande Ronde valley for the past year, so as to take in all of Eastern Oregon. Vice-presidents in the several other counties will be in charge of the work of their particular counties.

The organization has for one of its objects the education of poultrymen, including the farmers who have poultry as a side line, as well as the poultryman who makes it his specialty to raise poultry and eggs for the market to a realization that the best way to make poultry a paying crop of the farm is to get away from the old idea of letting hens roam around and forage for themselves. Efficient marketing, buying supplies to the best advantage by pooling orders of the members and thereby purchasing in large quantities on which better quotations can be secured, are among the other matters that the association has been working on for the past year.

Although the meeting Saturday was one at which only the Union county section of Eastern Oregon was represented, 40 members were present. When the association was first organized a year ago there were times when only three or four members would be present at the meetings, the growth indicating increased interest in the problems of making the hen pay her board and a good profit on the farms of Eastern Oregon.

The officers chosen for the year are J. M. Jensen, who is in the business on a wholesale scale, president. Mr. Jensen's long experience and observation is expected to be one of the factors that will help guide the larger organization into the success that the organization met with in Union county during its first year.

D. C. Sievers is vice-president and A. W. Loeffel, secretary-treasurer. The executive committee is composed of Chris Staekland, of Cove; J. H. Dav. W. B. Pickens, O. C. Pleshman and C. S. Schultz, of La Grande.

The co-operation of Harry G. Avery, county agent, during the past year, has contributed much toward the success the association has met with, officers and members declared at the meeting Saturday.

In commenting on the work of the association and its future, A. W. Loeffel, the new secretary, declared that, "As the past year has been the beginning of a new era in dairying in Eastern Oregon, so poultry is now receiving attention, due in large measure to that small group of poultry raisers who formed the Eastern Oregon Poultry association last year and by means of hard work laid the foundation for an organization that in its second year will probably become one of the largest organizations of its kind in the northwest."

"As soon as all farmers get the dairy and poultry habit, looking after these branches of farming in a business-like way, the empire of Eastern Oregon will no longer be entirely dependent on its hay and grain crops. Instead of a neglected and scorned sideline of farming, these two mighty industries are taking their places as the primary business in dirt farming in this section of the state."

been ill but at present they are improving rapidly. Liram Rock, junior at the La Grande Y. M. C. A., has been visiting with his daughter, Mrs. J. A. Leaf, for the last few days.

The sleighing is splendid here at present. The snow is about two and a half feet deep and cars are unable to navigate, only sleighs and hobsleds being used for travel.

SCHOOL GIVES BASKET SOCIAL

(Special to The Observer) MOUNT GLENN, March 7.—Mr. and Mrs. Elmer Beswick, who have been visiting with his brother, Alvera Beswick, left for their home in Canada. They have been visiting here for three months and have enjoyed their stay immensely. "Evea will as much wind and snow as La Grande has been experiencing this winter, it is nothing like what we have in Canada," they report.

School district No. 28 gave a basket social, for the purpose of raising funds for the installation of playground apparatus at the L. O. S. church, last week. A large number were in attendance and reported a fine time. The baskets were selected in a unique way, the ladies lining up behind a curtain with just their feet visible, and the feet were auctioned off, along with the basket, to the highest bidder. One of the boys joined the ladies and got a fair sum for his pedal extremities. About thirty dollars was cleared on the evening. The greater part of the evening was spent in playing games and dancing. Short musical program was also presented.

A surprise party was given at the home of Mrs. Ray Allen in honor of Miss Bernice Thompson, teacher in the Mt. Glenn schools. The evening was delightfully spent in playing games and observing a social hour. The hostess served some delicious refreshments.

Miss Blanche Whiting was hostess of a slumber party given to five of her friends. They arrived in sleighs and the evening was spent quite enjoyably. Those who were present were: Hilda Swanson, G. O. Parkman, Helen Decker, Edna Jackson, and Estelle Sherman. Mount Glenn is the scene of the wave of "flu" that is sweeping across the county. Many have been

PALESTINE IS AWAKENING NOW

(By Associated Press) JERUSALEM, Mar. 7.—Palestine is beginning to rouse from its long industrial slumber. Manufacturing industries are springing up rapidly in this country which could not boast of a single industry for hundreds of years under the Turkish regime. Now the new industries are beginning to compete strongly with foreign manufactures.

OFFICERS ARE NAMED AT COVE

The Cove farm bureau held a meeting in the city hall at Cove Friday afternoon for the purpose of electing officers for the coming year. Ray Duncan was re-elected president, Roy Bell, re-elected secretary, and Ernest Bell was elected vice-president. The committees will be appointed in the near future. At the close of the election several important matters were discussed. Plans for the securing of seeds for the coming year were thoroughly threshed out and also the securing of sufficient fertilizer for the orchards and alfalfa tracts. The ground squirrel campaign will be discussed at the next meeting, which will be held on March 31.

depression in trade prevailing throughout the world. Two existing handicaps, however, seem to arrest the rapid growth. The first is lack of electricity to run the machinery in factories and the second, the lack of suitable harbors, piers and sheds to facilitate the handling of the sudden increase in imports and exports.

The Rutenberg scheme for generating electricity from the River Jordan which has already been approved by the government in London and on which work is to start soon is expected to eliminate these handicaps. The administration is bending its utmost efforts to promote more enterprises. An exhibition of home industries, the first of its kind in Palestine, is being arranged for the first week of April.

CONCLAVE IS PRAISED MUCH

(By Associated Press) ROME, Mar. 7.—"A fine body of men," was the remark generally heard from visitors to Rome during the conclave of Cardinals which elected the new Pope Pius XI and who were seeing the Swiss Guards at the Vatican for the first time. "They are a lot of hard-boiled eggs," the same visitor would say a few minutes later when without pauses they had tried to rush past the barrage

and been energetically restrained by the same Swiss Guards. Standing six feet or more, the Swiss Guards, in their multi-colored uniforms present an inspiring sight as they march through the Court of Saint Damiano. In physique they are the nearest approach to the composite American battalion which General Allen led down from Coblenz to Paris and Rome as honor guards to the French and Italian unknown soldier. Most of them originate from the German cantons of the Swiss Confederation. Few of them speak French. All speak German and Italian.

MORE ELECTRIC ROADS BERNE, Switzerland, Mar. 8.—The electrification of railroads is making rapid progress in Switzerland. The whole of the Gotthard railroad from Lucerne to the Italian frontier now bears only electrically-drawn freight, thus effecting a saving of over 2,000 tons of coal monthly. Other lines to the German and Italian frontiers are being transformed for electric traction.
