## WATER PROBLEM SOLVED.

GRANDVIEW, Ida., Mar. 21.—Artesian wells are solving the problems of ranchers in this vicinity, so far as water supply is concerned. With the completion of a well last week on the W. J. Hinton property, 10 are now flowing steadily, the source of 350 miners' inches of water.

# SILVER SALMON EGGS RECEIVED

(By Associated Press)  
UNION, Mar. 21.—Mr. Stearns, A. I. Bidler's son-in-law, has been appointed as agent at the Union Junction and began his work there last week. He was formerly agent at this place.

Supt. Honney of the fish hatchery reports that he has received a second shipment of silver salmon eggs. This shipment was 300,000 eggs and they came from the Elk river in the western part of the state. He now has 450,000 silver salmon eggs in the hatchery and the plan is to stock Catherine creek with the young salmon each spring for four years, so as to insure a silver salmon run each year the same as the chinook run. The planting this season alone would insure a run about once in four years as the salmon comes back to the stream where it originated after that number of years.

New pipe for the relaying of the water main from the intake up Catherine creek and along some of the streets has arrived and is strung out along the water route. The line from the filtration plant will be laid with metal pipe about a foot in diameter and the line on Main street is of pipe about half that size.

Leonard Nelson moved back to his ranch last week. He had been living on the Smethers place near Union during the winter. The Nelson place is about three miles out on the Cove road.

Mrs. A. E. Ivanhoe was over last Wednesday to attend the funeral of Mrs. G. F. Haller, who died as a result of the "flu" a few days ago. The entire family had the disease but Mr. Haller and the children are recovering according to latest reports.

R. H. Rohrig, who came home from jury service in La Grande a few weeks ago on account of having the flu, is able to be out again and is working in the Mueller meat market.

Last Monday evening's social meeting of the Commercial club was postponed owing to the prevalence of the "flu" epidemic and also out of respect to the relatives of the Mrs. G. F. Haller, who had died Sunday evening.

At their regular meeting last Monday evening the Union school board members decided to economize by a substantial cut in teachers' salaries. The cut which extended all through the high school and grades will save the district about \$5,000 if the board is able to secure their teachers at the new salaries.

Mrs. E. J. Shuster and Mrs. W. V. Connor were hostesses to the members of the Ladies' Athletic club at the Shuster home on Tuesday evening. One feature of the evening was a guessing contest, the walls being decorated with pictures and objects representing animals. Grace Cook won the prize. A dainty luncheon was served by the hostesses. The club members are planning to take up tennis as soon as the season opens, provided they can secure ground for their court. A petition is before the city council for a location in the tourist camp grounds and will be acted upon at their next meeting.

The high school debating team which had been drilling for several days under the coaching of Mrs. Bowman, one of the instructors, met the Lostine quartet last night in Union and Lostine. The question was "Should we give the Philippines immediate independence?" Junia Crouter and Darrell Kiehlblock represented the affirmative and debated with two Lostine students at the Union high school while Frank Wright and Everett Kuhn went to Lostine and argued the negative side of the question with the other team from the latter place. L. A. Cook, L. Z. Terrell and F. N. Fox acted as judges here and awarded the decision to the visitors by a vote of two to one. Just after the meeting closed word was received that the other team had lost to the Wallawa county team also.

Mrs. Andrew Johnson, who has been very ill for the past week is much improved and will soon be out again.

Attendance at the schools is increasing as the "flu" epidemic gradually loosens its hold on the community.

The Commercial club has issued a six-page folder telling about Union and the interesting things and places surrounding the town.

Mrs. Garland Ross has resumed her work as teacher in the seventh grade of the school after being out several days on account of illness. Stock show committees are laying plans for a successful exhibition this year. A meeting was held at the city hall last Wednesday evening with vice-president Robert Withycombe presiding. County Agt. Avery was also present and promised some good exhibit work from the club work in the schools.

Members of the Union Post of the American Legion are rehearsing for the presentation of a play to be given next Thursday evening. The title of the play is "The Old New Hampshire Home." The Legion is starting a fund with which to build themselves a home or club house.

The M. I. A. comedy "Just for Fun" was given at the Cozy theater last Tuesday to a good house. The Mormon young people have given this play two or three times and to good houses each time.

Mrs. Eugene Parent entertained the Ladies' Altar society of the Catholic church at her home in South Union last Wednesday afternoon. The members spent the afternoon with needlework. A dainty luncheon was served by the hostess.

Mrs. Pearl Baldwin and Mrs. Betty Graves, who have been visiting with the Busieks, left last Thursday for their home in Bunker Hill, Indiana.

Miss Rosa Sherman of La Grande spent last week in Union going over the books in the Conner's store.

Mrs. E. O. Zeek is ill at her home in South Union and her daughter, Mrs. Frank Craig, is over from La Grande taking care of her.

Although the weather has not been very pleasant local high school boys are setting out and doing some track work and other practice looking forward to the annual track meet. As soon as the ground is in better condition the work will be pushed more rapidly.

Eggs in the local market have been selling for 20 cents, the dealers giving 15 cents, which is lower than they have sold here for a long time.

Mrs. C. T. Holley who has voluntarily taken charge of the gymnasium room each evening for the past year, has been unable to be at her post for several days on account of illness and a fall she had in the hall. She is better and will be out again in a few days.

Mrs. F. W. Spangula and two daughters left last week for Enterprise, where they will stay for several weeks. Mrs. Spangula will attend to some business in the latter city.

Frank Horne was over to La Grande last Saturday attending to some business.

# Telephone Service

The difference between what it costs to render the service and the value of the service to the people who use it is what measures the value to society of the discovery and development of the telephone. The fact that telephone service can be and is produced at a cost and sold to telephone subscribers at a price very much less than the value of the service to the subscribers constitutes the assurance of the stability of the business.

# "The Wild Goose"

A Cosmopolitan Production

The story of a man who was true to one woman, though another man stole her away.

Like the wild goose that knows but one mate, he chose her from all her sex as his wife. And then, through disgrace and treachery, even death, he stood by her, fought for her, won her back.

A romance as big as a boundless love.

THE LARGEST CHAIN DEPARTMENT STORE ORGANIZATION IN THE WORLD

Mrs. E. A. Humphrey who accidentally burnt her foot with hot grease a few days ago is getting better but is still compelled to walk on crutches.

O. J. Skiff has received his groceries and opened his store on the east side of Main street ready for the public's patronage.

### The Days of Long Ago.

North—Poor Jack is about down and out.

West—But he was a wonderful basketball player!

# ARCHITECTS HAVE EXHIBIT

(By Associated Press)  
NEW YORK, Mar. 21.—The exhibit of American architecture, organized by the American Institute of Architects and displayed in Paris and London last year, has aroused so much interest abroad that plans are now being made for showing it in other European cities.

The Royal Institute of British Architects has cabled Julian Clarence Levy, Secretary of the Committee of the American Institute of Architects, proposing a series of exhibitions in the larger English cities.

Should this prove feasible there is a strong probability that the exhibits will then be sent to Italy and shown in Rome.

The exhibit comprises a large number of photographs of the most notable buildings in the United States and represents many American cities, New York, Philadelphia, Washington, Detroit, Indianapolis, Denver, state capitols in Connecticut, Wisconsin and Missouri and examples of the architecture of American ecclesiastical and educational institutions.

It was shown at the annual exhibition of the Societe des Artistes Francais in Paris last Spring and afterwards under the auspices of the Royal Institute of British Architects in London.
