Crisp were both in the Daily Mail aeroplane when it crashed at Catalina one flight to Scotland. Major Lees was a member of the Shackleton expedition of 1914-15 in charge of motor sledges. He has made 81 parachute drops from aeroplanes with a view to perfecting aerial life saving.

The summit was reached at 7 p. m. February 12. The whole of the descent was made in a dense fog during the night. A violent storm raged all through the first night, including rests the climb and descent occupied exactly 48 hours. A record barograph was carried throughout the expedition.

The climbers state that the cold at the top of the mountain at night was not severe. They had the misfortune to lose their equipment, cameras, spare clothing, Thermos flasks, snow-shoes and all their food through "caching" it at a height of 10,000 feet and being unable to find it in the fog and darkness on the way down. In spite of going without food for 12 hours they arrived in splendid condition at their starting place, Göttemba.

No guides, coolies, horses or vehicles were employed other than a small sledge, made from a crashed aeroplane, on which the climbers pulled their equipment to the sleeping hut. Major Orde Lees and Mr.

YOUR KIDNEYS

Your Good Health and Long Life Depend on Your Kidneys. That's Why Insurance Companies Always Insist on Urinalysis.

Beaverton, Ore.—"I take great pleasure in stating what Dr. Pierce's Anuric Tablets have done for me in a very severe case of bladder and kidney trouble. For ten years I was distressed about every thirty minutes. I doctored and doctored but no relief. My last doctor bill was \$175.00, and I was no better. I went back to my old home and my father wanted me to give Dr. Pierce's Anuric Tablets a trial so I did and also took the Golden Medical Discovery with them to work on my liver. Now I can walk, ride, go to town and go for five or six hours without being distressed. I can not praise the Anuric Tablets too much for they are wonderful for the kidneys."
