WOLVES KILLING DEER IN MINAM

(Special to The Observer) JOSEPH, Mar. 29.—Mrs. W. E. Pittenger is in Hillsboro, caring for Dr. Pittenger's mother, who is seriously ill.

Mrs. J. A. Branson entertained the L. A. S. last Friday afternoon. The afternoon was spent with needle work and visiting and dainty refreshments were served.

Mrs. Fred McClain and daughter, Marjorie, returned Tuesday from a ten days' visit in La Grande, where Marjorie was under the care of Dr. Bouy.

Mrs. S. A. Foster and daughter, Louisa, have returned from a winter in Ontario. Both have recently returned from the city. Mrs. Foster is still not fully recovered.

About 25 Joseph people, members of Joseph Chapter No. 67, O. E. S., accepted an invitation to meet with the Enterprise chapter Tuesday evening. Officers of Joseph chapter initiated Mrs. Lila Cheeseman into the chapter. The work was nicely done and received great praise from Enterprise members. After chapter closed there was a delightful social hour and dainty refreshments were served.

When W. E. Pittenger and J. A. Wetzel went out to shoot squirrels on the lake hills south of Joseph they were not searching for as much adventure as fell to their lot. They saw a band of 12 deer feeding on the hills, driven down from the mountains because of deep snow. There are supposed to have been a number of deer in the mountains in late years, though for years they were very scarce.

Late years' small numbers have been reported from time to time but this was the largest band ever reported and an unusual number to be seen so close to a settlement. There is a report of large numbers of deer being killed by wolves this winter in the mountains.

Snow in Wallawa county is fast disappearing. Wolves are subjected to frequent snowstorms at that, as the old winter had no place to go and was quite determined to stay on for a time. We suppose Prairie creek farmers will have some heavy damage suits on their hands for failing to have their snow melt more slowly as low ground was badly flooded last week. Roads are almost impassable except on the highways and we cannot all keep to them. Spring plowing seems a few weeks in the future as yet. Winter wheat is in good shape, though there was hardly so much as usual sown last fall owing to the dry autumn.

The large crop of hay harvested proved a great blessing during the late spring and silos are holding a big place in the dairy man's heart.

CHATS WITH YOUR ELECTRIC MAN

—The other day a friend said to us: "Why should you advertise? You get all the electric business there is."

—We are glad he asked this question. Perhaps you, too, would like to know why. Here is our answer:

—It is not sufficient that we merely give good service, be courteous and make friends.

We want to dispel prejudice and misunderstanding from the minds of the public by continually stating the facts about our business.

—We believe it our duty to let the public know the real nature of our business and the aims and ideals of the men engaged in that business. There is no mystery about it, nothing that we would wish to cover up. Then why not advertise it?

—Like the man on the witness stand we can say: "It's the truth where there is truth and there is nothing but the truth to tell."

PROSPERITY

A state, community or city can never grow faster than her utilities, or extend further than they reach. The prosperity of a city or town, its alertness, its up-to-date methods, its progressiveness, in fact, its very character are reflected directly to the extent that they exist in its utilities. Likewise, show me a city with broken down, unhealthy and restricted utilities and I shall show you a city living in the backwoods of civilization, with no parks, improved streets or alleys, with unkept homes and unimproved public buildings; without civic pride and self-respect, and with a shipshod, shiftless, dozing, indifferent population—a mighty poor and unattractive place to live and do business.

Last Saturday evening Mr. and Mrs. Joe Anson entertained a number of friends at their home. The evening was spent in dancing and it was the wee small hours of the morning before the revelers decided it was time for them to depart for their homes. At midnight a delicious lunch was served.

The McAlister ditch meeting was held at the home of Mrs. Stringham Tuesday afternoon of last week. Mrs. Sara Anson, Mrs. C. E. Golden, George Salisbury, Joe Anson, John Schroeder and Eli Stein were present.

The Peobler brothers of Ladd Canyon have been hauling hay from George Salisbury's for the past several days. Hay is becoming very scarce, Mr. Salisbury being the only one in the neighborhood who has had hay to sell of late.

Account of the backward spring some of the stockmen are having to fall back on their straw stacks and these are gradually melting away.

Mrs. Roy Gekeley of Alice is still quite ill. It will be some time before she will be able to take charge of her school.

Mr. Henry Bork is improving.
