

FARMERS ARE BRANDING NOW

(Special to The Observer)
MEDICAL SPRINGS, Apr. 5.—Most all the farmers are branding and vaccinating their cattle before turning on the range.

The roads are the worst they have been for years. Nearly every day it rains and they don't improve very much.

The school children are enjoying a vacation this week while their teacher, Mrs. Francis Oliver, is in Baker.

Mrs. Eva Vanorder has been on the sick list.

Mr. and Mrs. J. Oliver were in Baker the last of the week. While there Mr. Oliver underwent an operation.

Dr. D. V. K. Deering was called Monday for J. P. Kennedy.

Baker visitors from Medical Springs were Cy and Frank Turner, Mrs. L. S. Wirth and daughter, Vera.

Wanker brothers were vaccinating the Woodson cattle Tuesday.

Mr. and Mrs. C. O. Bloom were Monday evening guests of Mrs. G. W. South.

Leslie Baker of Lyons Hill was a Medical Springs visitor Friday.

The many friends of Harold Hurst are glad to know he is improving in health after spending a month at Medical Springs.

Mrs. C. Vanorder was a Sunday guest at the home of Mrs. Eva Vanorder.

Chester Johnson of Union, was a Medical Springs visitor Monday.

MILITARISM DEAD FOREVER

(By Associated Press)
COPENHAGEN, Apr. 5.—Philip Scheideemann, leader of the German democratic party, while here told The Associated Press that German militarism was dead forever. The spirit of democracy had levelled Germany to that extent that the German republic could easily withstand any reactionary assaults.

Foreign countries, he said, exaggerated the political importance of the power of the German reactionaries. The communists were no real danger either. They were only gradually groping their way into the German trade unions "in order to learn their political manners."

Discussing the relations of Germany with Russia, Herr Scheideemann said the German government had negotiated with Karl Radek, Russian soviet agent in Berlin. He expressed the opinion that the murder of Count Mirbach, for which no apology had been received, presented no real barrier against the two nations arriving at an understanding.

INFANT CARE TO BE TAUGHT

(By Associated Press)
NEW YORK, Apr. 5.—A demonstration of the proper method of caring for newly-born infants in an effort to reduce the high death rate of mothers and babies throughout the country has been started by the Maternity Center association in a

CHATS WITH YOUR ELECTRIC MAN

Home again, dusty with travel, tired, hungry. "Something to eat—quick," and you turn to the kitchen range. A twist of the wrist, and there it is, the same old reliable and efficient electricity.

Yes, and it has been there waiting for you all the time you were away, ready to respond instantly to your whim or necessity.

Readiness to serve!

Tomorrow you will call upon us again for service, but you will give us no warning from hour to hour just what your requirements will be. Yet, the electricity will be there, plenty of it at all times, ready to be used in large or small quantities as you see fit.

Again readiness to serve!

To us it means having electricity on tap, 24 hours a day, 365 days a year, whether you use it or not.

Have you ever thought of it in this way?

P. Co.**

zone covering a square mile in the upper East Side.

The "base of operations" chosen for the association's educational campaign, contains both tenement houses and homes of working men in which, it is estimated, 4,000 babies will be born in 1922.

"The last word in complete maternity care will be given to every mother possible," a statement said. "The results will be carefully analyzed and the increased knowledge offered to the entire country."

Miss Mabel Choate, daughter of the late celebrated lawyer, Joseph Choate, who is president of the association, declared that at least 200,000 mothers die in the United States every year from causes incident to maternity. One hundred thousand babies are still born and another 100,000 die before they are one month old.

"In order that we may reach as many expectant mothers as possible in the district where we are making the intensive study," Miss Choate said, "house to house canvasses are being made by the nurses. All of the patients who can do so, are urged to attend the center. Those who cannot come through illness or for other reasons are visited in their homes."

The task before the association, she asserted, is to convince the mother that care is really necessary and to tell her just how to care for herself and for the expected baby.

"These two problems we are attacking through the preparation of more than 1,000,000 pamphlets which will be distributed throughout the country," said Miss Choate.

DAINTY HANDS ARE EXTINGUISHED

(By Associated Press)
ODESSA, Apr. 5.—Beautiful hands are a thing of the past in Russia. The hands of handsome women are hard and horny, almost as those of field laborers. They have neither hot water nor soap in which to wash them, nor salves and cold creams to prevent chapping.

Constant household labor in their single rooms, making fires for cooking, carrying water, chopping wood and many other primitive duties have hastened the effect of cold and dirt.

The hands of men and women of the theater, opera, pianists and instrument players, are in the same condition.

Mal-nutrition is another cause. Lack of milk and fats has wrought havoc with tender skins. Many women's cheeks are mottled like the skin of a fish. The same cause has hastened the decay of their teeth.

COURT MEETING IS ARRANGED

(By Associated Press)

YAKIMA, Wash., Apr. 5.—One day of the time of the Yakima county superior court, before summer vacation, will be given over to a meeting with the Honor Roll boys—

young men who have signed a formal pledge to uphold the law and help other young men to uphold it—according to an announcement by Judge George B. Holden.

Judge Holden's honor roll is up in the juvenile courts of the state.

"Triple divide" mountain in North

It was organized when a number of members of the Yakima athletic club, an organization formed by the Yakima Community Service, asked that several juvenile members be paroled to them instead of being sent to the reformatory. The court did not grant the request, but recognized the spirit of the boys by making them aides of the court.

It is Judge Holden's plan to have suitable proceedings before the court on honor roll day, and to supplement the program with community singing. The day will be made an annual affair if the first one proves a success.

TRIPLE DIVIDE

WASHINGTON, Apr. 4.—Location in Glacier National park of the only "Triple divide" mountain in North

America has been signalized by the United States geographic board which, originating at that point, Atlantic, Pacific and Hudson Bay creeks, respectively, and the Gulf of Mexico to the south.

From the summit of the triple divide an observer is within pebble-tossing distance of waters which flow into Hudson Bay to the north, the Pacific ocean to the west, and the Gulf of Mexico to the south.

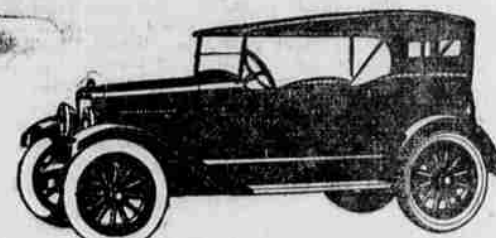

Creaming of Poverty.
To dream that you are very poor, and to rage, may not be a bad sign. It is said to indicate that good luck is coming your way and that riches lie in the future.
