**HUGE ASSEMBLY OF ALUMNI SOON**  
(By Associated Press)  
DETROIT, Mich., Apr. 6.—What is described as the largest university alumni assembly in the world's history is to take place the night of April 29. At that time graduates of the University of Michigan, numbering thousands and scattered between the Atlantic ocean and the Rocky mountains will hear again the strains of "The Victors" and "The Varsity" dear to the heart of every Michigan man, played by the University band. They will hear the same college songs that for years have resounded over Perry Field and the campus and listen to talks by Coach Fielding H. Yost, for 21 years the most striking figure in college football, Dr. Marion LeRoy Burton, president of the university, and others.

All Michigan men and women in the prescribed zone will participate in the reunion who are fortunate enough to possess radio-phonograph sets. According to word received here many thousands of the graduates will avail themselves of the opportunity and "listen in" either by means of individual receiving sets or gather in groups to hear the voices caught out of the air by larger receiving apparatus.  
The reunion will start at 8 p. m. and continue for two hours.  
The list of speakers includes representatives of many branches of university activity, as well as of the alumni and the students.

Willie Heston, former All-American halfback and who helped to write American gridiron history, will speak for the alumni. Birnie Vick, baseball captain and All-American center last year, Capt. Duke Dunno of last year's football team, football captain elct Paul Goebel, and Regent James O. Murfin are on the program.

The wire which ran out to where the still was sunk

in the water was found attached to a stake only after a long search among the rocks and brush along the bank. The still which is of about twenty-five gallons capacity, is made of copper and all of the joints are finished in a manner workmanlike enough to pass in the days gone by.

**Avoid Accidents.**  
Poisons should be kept in special bottles, but often household cleaning materials that are poisonous are kept in any bottle we have on hand. To prevent any mistakes keep a round-headed pin in the cork of every liquid that is poisonous, so that even in the dark there is little risk of a fatal mistake.

**JOSEPH HOTEL CHANGES HANDS**

(Special to The Observer)

Frank Tuckey of La Grande visited Joseph friends a few days last week, coming in on Saturday's train.

The Mitchell Hotel has been sold to outside parties, who have taken possession and Mr. Mitchell have moved to the old Mitchell boarding house, where they will live for the present. Jimmie Lee has leased the hotel property and will conduct it for the present.

Snaw has fallen at Joseph for the past 36 hours and the ground has a generous covering of "the beautiful." The beauty of the whole blanket in beginning to fall on the average person but this soft, wet, fast-melting variety fills the ground with moisture and insures a good crop when spring really comes. The day is getting rather scarce, but the old snow is gone in all except the timbered areas or ranches close to the mountains and when the storm is over grass will soon be plentiful.

There are plenty of lambs and calves that need the warm weather and a continued period of cold and storms at this time would be most undesirable.

W. G. Beith has purchased the Star theatre from the Enterprise Theatre company and is preparing to cater to the tastes of lovers of motion pictures. This theatre has been owned by Enterprise parties for more than two years and while excellent service has been given, greater interest should be taken in a home-owned institution.

The Entre Nous Club had a delightful program Thursday, March 30, consisting of papers concerning some of the foremost naturalists of America. Mrs. Harry Carpenter gave a brief sketch of Audubon and his wonderful work with birds. Mrs. Aug. White followed with a short talk on Thompson-Seton and his marvelous animal and bird stories. At one time Thompson-Seton was severely criticized for his animal stories and was given the title "nature faker." Later on he was known to be an intensive student of animal and bird life and his splendid stories of "Wild Animals I Have Known," "Animal Heroes" and other books have delighted thousands of interested readers.  
Mrs. T. E. Smith closed the pro-

gram with "Roosevelt the Naturalist," giving a history of his splendid work in preserving the natural wonders of America, creating its splendid forest reserves and protecting game and birds.

April 10th last day to pay water rent without a penalty.
