PREVENTATIVE MEDICINE
 The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is fully to risk an attack of pneumonia when this remedy may be obtained for a trifle.—adv.

The Great American Dessert

KINGSFORD'S CORN STARCH PUDDING

2 cups scalded Milk 1/2 cup Sugar 2 Eggs 1/4 teaspoon Salt
 4 level tablespoons Kingsford's Corn Starch 1/2 teaspoon Vanilla
 1 oz. Chocolate melted (optional)

Mix the corn starch with a little cold milk. Stir the hot milk slowly into the corn starch and stir over water till it thickens. Cook fifteen minutes. Beat the eggs slightly, add the sugar and salt. Add the corn starch mixture to the eggs, and cook, stirring constantly, one minute longer. Remove from fire, add the vanilla or melted chocolate as desired. Serve cold with cream and sugar. (Serves six persons.)

IT is not necessary to purchase both a bread and a pastry flour. By using quarter cup of Kingsford's Corn Starch to three-quarter cup of any good flour the percentage of gluten is decreased and the starch content increased so that home prepared flour will make a lighter and finer grained cake.
