Economy Filling Station Opens With Cut of 2 1-2 Cents a Gallon on Gasoline

We are here. Now listen to our new prices on gasoline—a saving of \$25,000 to car drivers this season.

The Union County Automobile Association addressed the following letter to us:

Wade Bros. Gentlemen:

At a meeting of the Union County Automobile Association April 29th I am directed to call your attention to prices we are paying for gasoline here and other cities or neighboring towns. We believe we are entitled to a reduction. We believe that it will stimulate the business. At the present war prices it is almost prohibitive to run cars, thanking you for an early reply.

By Order of the Executive Committee,

A. V. ANDREWS, Secy.

HERE IS OUR REPLY

To the Automobile Club of Union County and the Public in General: We wish to announce that we have opened our Service Station at the corner of Greenwood and Adams, and replying to the above that we will make a reduction on gasoline of 2 1/2c through our Service Station. The present price will be 30 1/2c. We feel that this is due the people and that it will make them a saving of between twenty and twenty-five thousand dollars in this community during the season. We will carry nothing but a good grade of Gasoline and Paraffine base motor oils which will be second to none in this territory. We are citizens of La Grande and claim the distinction of being the only independent oil company in the state with headquarters in Oregon. It is to our mutual benefit to work together. Why not patronize home industry and help build up the community? Ask for Economy Gas which is true gasoline and Supreme Brand Motor Oils, which have a high flash and fire test, and we are sure they will please you. We know we have been a real benefit to you by making it possible for you to buy gasoline at 30 1/2c. Now if you think we are deserving we will appreciate your patronage.

PRINCES LACK IN EDUCATION

(By Associated Press)

CONSTANTINOPLE, May 2.—Turkish princes have been found lacking in educational qualifications by the Council for the Affairs of the Imperial Family, which has decided to establish a secondary school exclusively for the use of young scions of royalty.

An investigation by the Council disclosed that since 1908 only three Imperial Princes have been well educated in military matters, and they are graduates of German institutions. One of them now holds the rank of major, while the other two are captains. Omar Farouk Effendi, son of the heir-apparent, is a graduate of the Vienna Theresianum.

Fifteen other princes are said to have little if any military education and but limited schooling in general subjects. Essad Pasha, ex-Minister of Marine, has been instructed to draw up plans for their education and select a site for the royal school.
