1902—Our 20th Anniversary—1922

A Score of Years of Remarkable Achievement!

The success of the J. C. Penney Company constitutes an important chapter in the history of mercantile achievement in the United States.

Founded in 1902 its one store did a gross business that year of \$28,898.11. Twenty years later, in 1921, the number of stores had grown to 312, scattered thruout 27 States, and the gross business had attained the colossal figures* of \$46,643,928.20.

This great expansion was not the result of luck — it did not just happen — but was the outcome of an earnest and conscientious effort in the interests of the public this Company has so faithfully served.

In commemoration of the Company's Twentieth Year in business, plans have been completed to open more than 50 new stores this Fall.

We naturally feel proud of this achievement of a score of years but we fully appreciate that its accomplishment was made possible only by the hearty support accorded us by our legion of friends. For your part, we heartily thank you.

In the future as in the past, we shall strive to merit your patronage.

Mrs. Robert Eakin had a paper on Paul Manchip, the American sculptor, and Mrs. L. B. Moe had had her subject Paul Cezanne, the French painter. The art slides shown added to an appreciation of the works of these two artists who stand out in strong contrast to each other. They deceived their leader to the scenic Grande Ronde canyon in the afternoon, where they formed a kangaroo court and proceeded to administer to him the remainder of his term. It was one instance where the command of the leader was disobeyed, for the boys contended that on such an auspicious occasion they had a few rights which were not mentioned in the manual.

Bricklayers on Battleships.

One would scarcely expect to find bricklayers on a battleship. Nevertheless several are busy on the bow. They build walls—in the throats of the great funnels, where the constant succession of terrific heat bursts away the firebricking like so much charcoal.

That's All the Difference. A green traveler complains because what he encounters in his travels is not what he's accustomed to at home, while a sophisticated globe-trotter enjoys it because it isn't.
