Unknown Foods

You do not ask your family to sit down to the table with unknown guests.

Are you equally careful about the meats you invite them to eat? Equally sure of where they come from, what they are, who stands sponsor for them?

Nowadays, fortunately, the risk is not great. But with Swift & Company's products there is none.

Swift & Company's products are the result of years of experience, of careful, conscientious effort.

Their quality is a constant factor, always to be depended upon. The consumer is doubly protected because, in addition to the care used by Swift & Company, Swift's food products are carefully inspected by government employes and bear the federal inspection stamp.

The word "Premium" on ham or bacon means that we stake our pride and the reputation of years on that ham or bacon.

These products have been selected, cured, smoked, and handled by workmen who take the same pride in our products that we do.

Be sure of Swift's products and thus make certain that no strange or unknown food is introduced into the family circle!
